Basic Life Sciences Department of Calcified Tissue Biology

(1) Staff and Students

Professor: Yuji Yoshiko

Assistant Professor: Tomoko Minamizaki, Hirotaka Yoshioka, Yuichiro Takei

Research Assistant: Miho Kondo

Temporary Staff Yayoi Sato

Graduate Student: Kaoru Sakurai (Pediatric Dentistry), Yoko Fujino (Special Care Dentistry)

Kagawa (Advanced Prosthodontics), Saki (Orthodontic Dentistry), Yuko Nakao

(Orthodontic Dentistry) Faisal Ahmed, Yasumasa Ito (Pediatric Dentistry)

International Research Student: Sarmin Nushrat

(2) Main Research Activities

H Bone and tooth formation and mineralization

H Calcitropic and phosphotropic factors and mineral metabolism

H Osteonetwork

H MicroRNA

(3) Research Achievements

A) Original Papers (including Case Reports)

H The dynamics of DNA methylation and hydroxymethylation during amelogenesis.: Yoshioka H, Minamizaki T, Yoshiko Y.: Histochemistry and Cell Biology, 144, 477B, 2015

B) Reviews

H Functional diversity of fibroblast growth factors in bone formation.: Take Minamizaki T, Yoshiko Y.: International Journal of Endocrinology, 2015, 729352, 2015.

H The bioactive acidic serine and aspartate rich motif peptide.: Minamizaki T, Yoshiko Y.: Current Protein & Peptide Science, 16 (3): 1962, 2015.

C) Books

D) Other Publications

- H HBone-derived miRNA as a mediator of cell communication.Takei Y, Minamizaki T, Yoshioka H, Yoshiko Y.: Proceedings of the Hiroshima Conference on Education and Science in Dentistry, 71-72, 2015.

E) Presentation at Scientific Meeting

1) Invited lecture, Symposium, Workshop, etc.

- H HThe FGF23/Klotho axis and bone mineralization.: Yoshiko Y. A Conference of International Collaboration between Hokkaido University and Shandong University (Sapporo), 2015.
- H HMicrRNA-mediated cell communication in Bone.: A novel target for antiresorptive therapy. Yoshiko Y. The 3rd Joint Scientific Meeting in Dentistry (Surabaya), 2015.
- H HBone-derived miRNA as a mediator of cell communication.Takei Y, Minamizaki T, Yoshioka H, Yoshiko Y.: 6th Hiroshima Conference on Education and Science in Dentistry (Hiroshima), 2015.

2) General

- H HThe regulation of osteochondrogenesis by FGF10 and identification of a soluble form of FGFR2b.: Kagawa K.: Frontal Dental School 2015 Fukuoka, 2015.
- H HThe role of QFHRIRI*) . ORWKR JOXFRVHDQGOLSLGPHWDEROLF F osteogenesis and adipogenesis.: Minamizaki T, Yoshioka H, Takei Y, Yoshiko Y.: The 57th Annual Meeting of the Japanese Society of Oral Biology (Niigata), 2015.
- H HEflect of D-Aspartate on mouse osteoblastic cells.: Arima Y, Yoshiko Y, Namera A, Murata M, Yoshimoto K, Nagao M.: BMB 2015 Biochemistry and Molecular Biology (Kobe), 2015.
- H HEflect of D-Aspartate on MC3T3-E1 osteoblasts.: Arima Y, Yoshiko Y, Namera A, Murata M, Yoshimoto K, Nagao M.: The 11th Conference of Amino Acid Research (Nagaoka), 2015.
- H HMatrix vesicles mediate the cell-to-cell transmission of MicroRNA125b as an inhibitor of osteoclastidboneresorption.: Takei Y, Nakao Y, Minamizaki T, Irie Y, Ahmed F, Yoshioka H, Niida S, Tanimoto K, Yoshiko Y.: The American Society for Bone and Mineral Research 2015 Annual Meeting (Seattle), 2015.
- H HMicrRNAs involved in bone metabolism are transported into matrix vesicles during bone formation.: Nakao Y, Takei Y, Minamizaki T, Yoshioka H, Ahmed F, Tanimoto K, Niida S, Yoshiko

- Y.: The American Society for Bone and Mineral Research 2015 Annual Meeting (Seattle), 2015.
- H Newly identified FGFR2 isoform modulates FGFR signaling during osteochondrogenesis.: Kagawa K, Yoshioka H, Okita S, Kuremoto K, Takei Y, Minamizaki T, Tanimoto K, Tsuga K, Yoshiko Y.: The American Society for Bone and Mineral Research 2015 Annual Meeting (Seattle), 2015
- H H Nano-CT analysis of osteocyte anomalies in Klotho^{-/-} mice.: Minamizaki T, Sakurai K, Yoshioka H, Takei Y, Kozai K, Yoshiko Y.: The American Society for Bone and Mineral Research 2015 Annual Meeting (Seattle), 2015
- H HA Novel isoform of FGFR2 Modulates FGFR Signaling in Osteochondrogenesis.: Yoshioka H, Kagawa K, Okita S, Kuremoto K, Takei Y, Minamizaki T, Tanimoto K, Tsuga K, Yoshiko Y.: 6th Hiroshima Conference on Education and Science in Dentistry (Hiroshima), 2015.
- H H MEPE-ASARM, a substrate of the neutral endopeptidase PHEX involved in rickets/osteomalacia, acts as an inhibitor of bone formation.: Sakurai K, Minamizaki T, Hayashi I, Yoshioka H, Takei Y, Kozai K, Yoshiko Y.: 6th Hiroshima Conference on Education and Science in Dentistry (Hiroshima), 2015.

(4) Status of Receiving Grants/Aid for Scientific Research, etc.

- H Grants-in-Aid for Young Scientists (B) Continuance Takei Y., MicroRNA-mediated cellular network in calcified tissue. No. 26861548 ¥1,300,000
- H Grants-in-Aid for Scientific Research (C) Continuance: Yoshioka H., Development of bone regeneration strategies by controlling the epigenetic state of bone lining cells. No. 26462785, ¥1,690,000
- H Grants-in-Aid for Scientific Research (C) Continuance: Minamizaki T., Study of regulation of bone/tooth mineralization via downstream factor(s) of Klotho derived from breast cancer cells. No. 25462858, ¥1,560,000
- H Ono Pharmaceutical Co. Ltd.: Yuji Yoshioka, ¥500,000
- H HAMED, The Drug Discovery Support Network: Yuji Yoshioka, ¥38,260,000

(5) Academic Awards, etc.

- H Kagawa K.: The highest award. Frontal Dental School 2015.
- H Takei Y, Nakao Y, Minamizaki T, Irie Y, Ahmed F, Yoshioka H, Tanimoto K, Yoshiko Y.: 2015 ASBMR Plenary Poster Award. ASBMR 37th annual meeting.
- H Takei Y, Nakao Y, Minamizaki T, Irie Y, Ahmed F, Yoshioka H, Tanimoto K, Yoshiko Y.: 2015

ASBMR Young Investigator Travel Grant ASBMR 37th annual meeting

- H HKagawa K, Yoshioka H, Okita S, Kuremoto K, Takei Y, Minamizaki T, Tanimoto K, Tsuga K, Yoshiko Y.: 2015 ASBMR Plenary Poster Award ASBMR 37th annual meeting
- H HKagawa K, Yoshioka H, Okita S, Kuremoto K, Takei Y, Minamizaki T, Tanimoto K, Tsuga K, Yoshiko Y.: 2015 ASBMR Young Investigator Travel Grant ASBMR 37th annual meeting
- H HYoshioka H, Kagawa K, Okita S, Kuremoto K, Takei Y, Minamizaki T, Tanimoto K, Tsuga K, Yoshiko Y: Poster Award 6th Hiroshima Conference on Education and Science in Dentistry

(6) Patents

- H HYoshiko Y, Takei Y, Minamizaki T, Yoshioka H, Ochi Y.: Inhibitors of osteoclast formation and/or function, activators of osteoclast formation and/or function, and screening methods for inhibitors/activators of osteoclast formation and/or function. PCT/JP2015/162851, Applicants: Ono Pharmaceutical Co. Ltd. and Hiroshima University

Basic Life Sciences

Department of Physiology and Oral Physiology

(1) Staffs and Students

Professor SUGITA, Makoto

Associate Professor HIRONO, Chikara

Assistant Professor KITAGAWA, Michinori

Research Assistant YAMAMOTO, Kuniyo

Graduate Student YAMAMOTO, Kuniyo, TERACHI, Momomi

(2) Main Research Activities

>/> Molecular physiological study on function of ion channels and ion transporters

>>> The neuronal mechanisms underlying the taste behavioral and emotional responses

>>1 The role of cell communication in proliferation and differentiation of the oral epithelium and salivary glands

>>2 Study on the system mechanisms of mastication and swallowing

(3) Research Achievements

A) Original Papers(including Case Reports)

B) Review

C) Publications

D) Other publication

E) Presentation at Scientific Meeting

>/> Genetic tracing reveals the architectural solution in the parabrachial nucleus that processes taste information and gates emotional memory. Sugita M., Yamamoto K., Hirono C., Shiba Y: The 92th Annual Meeting of the Physiological Society of Japan (Kobe), 2015.

>>> Molecular ranges of reception and inhibition in mouse TAS2R bitter taste receptor. Yamamoto K., Hirono C., Okada M., Sugita M. The 48th Annual Meeting of Hiroshima University Dental

Society (Hiroshima), 2015.

>1>Body homeostasis mechanisms revealed by visualizing and analyzing brainstem ~~relating~~ neurons Sugita M., Yamamoto K., Hirono C., Shiba Y. : 2015 NIPS Research Meeting (Okazaki) 2015.

(4) Status of Receiving Grants Aid for Scientific Research, etc.

>/>8StepUp Support Program for KAKENHI (Grant-Aid for Scientific Research) FY2015: Kitagawa M., Visualization of Hippo signaling pathway by using bimolecular fluorescence complementation. ¥1,000,000.

(5) Academic Awards, etc.

(6) Patents

Basic Life Sciences

Department of Molecular Biology and Biochemistry

(1) Staff and Students

Professor: Chisa Shukunami

Associate Professor: Mitsuhide Noshiro

Assistant Professor: Katsumi Fujimoto

Assistant Professor: Hiroshi Yamashita

Assistant Professor (Special Appointment): Yuki Yoshimoto

Researcher: Veronica Sainik Ronald (~June)

(2) Main Research Activities

- 1: Mechanisms regulating in the establishment of the junction between cartilage and tendon/ligament
- 2: The role of Pax1 during formation of vertebral column
- 3: Mechanisms of tendon/ligament formation
- 4: Mechanisms of periodontal ligaments formation
- 5: Pathogenic mechanisms involved in adolescent idiopathic scoliosis
- 6: Study on the regulatory mechanisms of lipid metabolism and blood pressure control by clock proteins DEC1 and DEC2.
- 7: Mechanisms regulating differentiation of dental pulp stem cells

(3) Research Achievements

A) Original Papers (including Case Reports)

- 1: OASIS modulates hypoxia pathway activity to regulate bone angiogenesis: Cui, M., Kanemoto, S., Cui, X., Kaneko, M., Asada, R., Matsuhisa, K., Tanimoto, K., Yoshimoto, Y., Shukunami, C., Imaizumi, K.: *Scientific Reports*, 5, 16455, 2015.
- 2: Conservation of structure and function in vertebrate LIP proteins despite rapid evolutionary change: Sakamaki, K., Iwabe, I., Iwata, H., Imai, K., Takagi, C., Chiba, K., Shukunami, C., Tomii, K., Ueno, N.: *Biochemistry and Biophysics Reports*, 3, 189, 2015.
- 3: FGF2 stimulates the growth of tenogenic progenitor cells to facilitate the generation of Tenomodulin-positive tenocytes in a rat rotator cuff healing model: Tokunaga, TS., Shukunami, C., Okamoto, N., Okada, T., Taniwaki, T., Oka, K., Sakamoto, M., Hizuta, H., Hiraki, Y: *The American Journal of Sports Medicine*, 43(10), 241422, 2015.
- 4: A functional SNP in BNC2 upregulates BNC2 expression and increases the risk of adolescent idiopathic scoliosis: Ogura, Y., Kou, I., Takahashi, A., Miura, S., Xu, T., Takahashi, Y., Kono, K., Kawakami, N., Uno, K., Ito, M., Minami, S., Yonezawa, I., Yanagida, H., Taneichi, H., Zhu, Z., Tsuji, T., Suzuki, T., Sudo, H., Kotani, T., Watanabe, K., Hosogane, N., Okada, E., Sudo, A., Chiba, K.,

- Toyama, Y., Imai, Y., SawasakiT., Qiu, Y., Shukunami, C., Kubo, M., Matsumoto, M., Ikegawa, S.: The American Journal of Human Genetics, 97(2), 382, 2015.
- 5: Scleraxis and osterix antagonistically regulate tensile responsive remodeling of the periodontal ligament and alveolar bone: Takimoto, A., Kawatsu, M., Yoshimoto, Y., Kawamoto, T., Seiryu, M., Takane Yamamoto, T., Hiraki, Y., Shukunami, C.: Development, 142, 797, 2015.
- 6: Loss of tenomodulin results in reduced self-renewal and augmented senescence of tendon stem/progenitor cells: Alberton P, Dex S, Popov C, Shukunami C, Schieker M, Docheva D: Stem Cells Dev, 24, 597-609, 2015.
- 7: Characteristic expression of MSX1, MSX2, TBX2 and ENTPD1 in dental pulp cells: Fujii S, Fujimoto K, Goto N, Kanawa M, Kawamoto T, Pan H, SrivatanaB, Rakdang W, Pornprasitwech J, Saskianti T, Suardita K, Nishimura F, Kato Y: Biomed. Rep., 3(4), 576, 2015.
- 8: DEC2-E4BP4 Heterodimer Represses the Transcriptional Enhancer Activity of the EE Element in the Per2 Promoter: Tanoue S, Fujimoto K, Myung J, Hatanaka F, Kato Y, Takumi T: Front. Neurol., 6, 166, 2015.
- 9: Basic helix-loop-helix transcription factor DEC1 regulates the cisplatin-induced apoptotic pathway of human esophageal cancer cells: Seino H, Wu Y, Morohashi S, Kawamoto T, Fujimoto K, Kato Y, Takai Y, Kijima H: Biomed. Res., 36(2), 896, 2015.
- 10: Involvement of cMyc in the proliferation of MCF7 human breast cancer cells induced by bHLH transcription factor DEC2: Wu Y., Sato H., Suzuki T., Yoshizawa T., Morohashi S., Seino H., Kawamoto T., Fujimoto K., Kato Y., Kijima H: Int. J. Mol. Med., 35(3), 818-820, 2015.
- 11: Effects of fibronectin on spreading, proliferation, and differentiation of mesenchymal stem cells under serumfree conditions: Veronica Sainik Ronald: The Journal of Hiroshima University Dental Society, 47, 3240, 2015.

B) Review

- 1: Tendons and epymisium that integrate the musculoskeletal components: YoshimotoY., Yamashita H., ShukunamC.: THE BONE.29(3), 63-68, 2015
- 2: Development and integration of the musculoskeletal system: TakimotoA., YoshimotoY., Yamashita H., ShukunamC.: Orthopaedic Surgery and Traumatology 58(10), 731-739, 2015

C) Publications

- 1: Blood vessels and nerves in bone; KotsupetK.: Keyword dictionary for bone disease and bone metabolism: ShukunamC.: YODOSYA (Tokyo), p 25-29, 2015.
- 2: ChondromodulinI, Tenomodulin, Scleraxis; Keyword handbook for regenerative medicine: ShukunamC.: Medical Tribune(Tokyo), p106-109, 2015.

D) Other Publications

E) Presentation at Scientific Meeting

- 1: *In vivo* screening of the element regulating cartilage specific chm1 gene expression: Hiroshi Yamashita, Chisa Shukunami, Yuji Hiraki: 6th Bone Science workshop (Okayama), 2015.
- 2: The role of Scx in enthesis formation: Yuki Yoshimoto: The 16th Locomotor Science Meeting (Tokyo), 2015.
- 3: Regulation of dental pulp stem cell differentiation by the MSX1 homeobox transcription factor: Katsumi Fujimoto, Noriko Goto, Takeshi Kawamoto, Mitsuhide Noshiro, Chisa Shukunami, Katsuyuki Kozai, Yukio Kato: The 99th Regular Meeting of the Hiroshima University Dental Society (Hiroshima) 2015.
- 4: MSX1 downregulates the expression of cholesterol synthesis genes in dental pulp stem cells: Noriko Goto, Katsumi Fujimoto, Sakiko Fuji, Hiroko Manemochi, Hayato Ohshima, Takeshi Kawamoto, Mitsuhide Noshiro, Chisa Shukunami, Katsuyuki Kozai, Yukio Kato: Annual Meeting of the 88th Japanese Biochemical Society and 38th Molecular Biology Society of Japan (Kobe), 2015.
- 5: Establishment of an *in vivo* model for analysis of periodontal ligament formation: Yuki Sugimoto, Aki Takimoto, Yuji Hiraki, Chisa Shukunami: Phoenix Leader Education Program Retreat (Hiroshima), 2015.
- 6: Generation of Scx deficient mouse and Runx2 mutant mouse by TALEN mediated genome editing: Yuki Yoshimoto: The meeting of Research center for genome editing (Hiroshima), 2015.
- 7: Establishment of a ScxGFP mouse line for analysis of periodontal ligament formation: Yuki Sugimoto, Aki Takimoto, Yuji Hiraki, Chisa Shukunami: Hiroshima Peace seminar (Hiroshima), 2015.

F) Special lectures in academic meetings

- 1: Molecular mechanisms regulating enthesis formation: Chisa Shukunami: The Annual Meeting of the Japanese Society of Cartilage Metabolism, 2015
- 2: Regulation of mechanical stress in the periodontal ligament: Chisa Shukunami: The 38th Meeting of the Japanese Tissue Culture Association, 2015.
- 3: Molecular mechanisms underlying the formation of tendons and ligaments: Chisa Shukunami: The 26th Bone Research Joint Meeting, 2015.
- 4: Scx is required for the formation of fibrocartilagenous enthesis: Yuki Yoshimoto: The 33rd Annual Meeting of the Japanese Society for Bone and Mineral Research, 2015.
- 5: Formation of tendons that integrate the musculoskeletal components: Chisa Shukunami: The 1st Meeting of Japan Muscle Society, 2015.
- 6: *In vivo* screening of the element regulating cartilage specific chm1 gene expression.: Hiroshi Yamashita: The 12th Bone Biology Forum, 2015.

- 7: Contribution of the Scx+/Sox9+ cell population to the establishment of the junction between tendons/ligaments and cartilage: Chisa Shukunami: The 57th Annual Meeting of Japanese Association for Oral Biology2015.
- 8: The antiangiogenic action of Tenomodulin, a specific marker for tendons and ligaments: Chisa Shukunami: 6th Hiroshima Conference on Education and Science Dentistry Symposium2015

(4) Status of Receiving Grants/Aid for Scientific Research, etc.

- 1: Grantin-Aid for Scientific Research (B): Chisa Shukunami, 2629339,070,000
- 2: Grantin-Aid for Scientific Research (B): Haruhiko Akiyama, Chisa Shukunami, 25293319, ¥100,000
- 3: Grantin-Aid for Scientific Research (C): Katsumi Fujimoto, 25462889,430,000
- 4: Grantin-Aid for Young Scientists (B): Yuki Yoshimoto, 15K20372,340,000
- 5: Hiroshima University Granin-Aid for Challenging Exploratory ResearchHiroshi Yamashita, ¥500,000
- 6: the Cooperative Research Program of the Institute for Frontier Medical Sciences, Kyoto University: Chisa Shukunami, 2,600,000

(5) Academic Awards, etc.

(6) Patents

Basic Life Sciences

Department of Oral and Maxillofacial Pathobiology

(>/) Staffs and Students

Professor >8Takashi Takata

Associate Professor >8Mutsumi Miyauchi

Assistant Professor >8Hisako Furusho, Toshinori Ando (from March), Mariko Obayashi (until March)

Graduate Student >8Chea Chanbora (D4), Nurina Febriyanti Ayuningtyas (D4) >9Graduated in September,

Shunryo Yanagisawa (D3) , Atsuhiro Nagasaki (D2), Shinichi Sakamoto (D1),

Hiroki Tsuji (D1), Shrestha Madhu (D1), Naoki Sako (M1),

Sakura Yamada (D1, Department of orthodontics)

(>0) Main Research Activities

H Molecular pathological study on proliferation and development of oral squamous cell carcinoma

H Experimental pathological study on the mechanism of regeneration of periodontal tissues

H Experimental pathological study on relationship between odontogenic infection and systemic health condition

H Study on the criteria of diagnosis and cellular differentiation of odontogenic tumors and salivary gland tumors

(>1) Research Achievements

A) Original Papers(including Case Reports)

H Dental infection of *Porphyromonas gingivalis* induces preterm birth in mice: Ao M., Miyauchi M., Furusho H., Inubushi T., Kitagawa M., Nagasaki A., Sakamoto S., Kozai K., Takata T.: PLoS One, 10(8), e0137249, 2015. doi: 10.1371/journal.pone.0137249.

H Osteodystrophy in cholestatic liver diseases is attenuated by glutamyl transpeptidase antibody: Kawazoe Y., Miyauchi M., Nagasaki A., Furusho H., Yanagisawa S., Chanbora C., Inubushi T., Hyogo H., Nakamoto T., Suzuki K., Moriwaki S., Tazuma S., Niida S., Takata T.: PLoS One, 10(9), e0139620, 2015. doi:10.1371/journal.pone.0139620.

H F-spondin inhibits differentiation of clastic precursors via lipoprotein receptor-related protein 8 (LRP8): Oka H., Kitagawa M., Takata T.: Journal of Periodontology, 86(3), 472-52015. doi:

10.1902.2014.140419.

- H The FGFR1 inhibitor PD173074 reduces ~~inflammation~~ clastogenesis in gingival squamous cell carcinoma: Nguyen P. T., Ajiravudh S., Miyauchi M., Ogawa I., Takata T.: *Oral Surgery, Oral Medicine, Oral Pathology and Oral Radiology*. 119(3), e172, 2015.
- H Phospholipase C ϵ lated catalytically inactive protein is a new modulator of thermogenesis promoted by β -adrenergic receptors in brown adipocytes: Oue K., Zhang J., ~~Hirata~~K., Asano S., Yamawaki Y., Hayashiuchi M., Furusho H., Takata T., Irfune M., Hirata M., Kanematsu T.: *The Journal of biological chemistry*, pii: jbc.M115.705723, 2015. [Epub ahead of print]
- H Enhanced expression of contractile associated proteins and ion channels in preterm delivery model mice with chronic odontogenic *Porphyromonas gingivalis* infection: Miyoshi H., Konishi H., TeraokaY., Urabe S., Furusho H., Miyauchi M., Takata T., Kudo Y.: *Reproductive sciences*, pii: 1933719115620497, 2015. [Epub ahead of print]
- H Distinction between cell proliferation and apoptosis signals regulated by derived neurotrophic factor in human periodontal ligament cells and gingival epithelial cells: Kashiwai K., Kajiya M., Matsuda S., Ouhara K., Takeda K., Takata T., Kitagawa M., Fujita T., Shiba H., Kurihara H.: *Journal of Cellular Biochemistry*, 2015. doi: 10.1002/jcb.25446. [Epub ahead of print]
- H Novel biological activity of ameloblastin in enamel matrix derivative: Kuramoto S., Ariyoshi W., Saito N., Okinaga T., Kamo M., Isisaki A., Takata T., Yamaguchi K., Nishihara T.: *Journal of applied oral science*, 23(1), 59-2015. doi: 10.590/1678775720140291.
- >7> Bisphosphonate-related osteonecrosis of the jaw successfully treated with surgical resection and its histopathological features: A long-term follow-up report: ShintaniT., Miyauchi M., Tani R., YoshiokaY., Akagi E., TorataniS., OkamotoT.: *Journal of Oral and Maxillofacial Surgery, Medicine and Pathology* 27(2), 283286, 2015.
- >/>>8 Morbidly obese patient with nonalcoholic steatohepatitis-related cirrhosis who died from sepsis caused by dental infection of *Porphyromonas gingivalis*: A case report: Omura Y., Kitamoto M., Hyogo H., Yamanoue T., Tada Y., Boku N., Nishisaka T., Miyauchi M., Takata T., Chayama K.: *Hepatology Research*, 2015. doi:10.1111/hepr.12528.
- H High-grade epithelial-myoepithelial carcinoma of the parotid gland with mucous cell differentiation: Sentani K., Ogawa I., Uraoka N., Ikeda M., Hayashi N., Hattori T., Hattori Y., Oue N., Takata T., Yasui W.: *Pathology International*, 65(9), 490, 2015.
- H Peripheral ameloblastoma with histologically low-grade malignant features of the buccal mucosa: a case report with immunohistochemical study and genetic analysis: Goda H., Nakashiro K., Ogawa I., Takata T., Hamakawa H.: *International Journal of Clinical and Experimental Pathology*, 8(2), 2085-2089, 2015.
- H The significance of titanium allergy test as preoperative examination of implant.: Kitagawa M., Ohbayashi M., Nagasaki A., Yanagisawa S., Shintani T., Kagawa K., Abekura H., Hiasa K., Kubo

- T., Takechi M., Ogawa I., Kurihara H.J JSEDP7(1), 3134, 2015.
- >/>2>8A case of cytokeratin positive mucoepidermoid carcinoma with *CRTMAML2* fusion gene: Obayashi M., Nagasaki A., Mizuta K., Ogawa I., Takata T.: Japanese Journal of Diagnostic Pathology. 32(2), 327-330, 2015.
- >/>3>8Clinico-statistical Study of Prognostic Prediction using Pre-treatment PET/CT in Oral Cancer Patients Mizuta K., Ohta K., Ono S., Shigeishi H., Nakagawa T., Fujimoto S., Uetsuki R., Obayashi M., Ogawa I., Takata T., Takechi M.: Journal of Hiroshima University Dental Society, 47(1), 842, 2015.
- H H A case of a large osteoma containing maxillary mucosa in the maxillary sinus: Okumura T., Ono S., Nakagawa T., Miyauchi M., Ogawa I., Takachi M.: Japanese Journal of Oral and Maxillofacial Surgery, 61(12), 678-77, 2015.
- H H A case of cherubism with bilateral central giant cell lesions of the mandible: Kanda T., Kimura N., Ando T., Toratani S., Hara J., Okamoto T.: Japanese Journal of Oral and Maxillofacial Surgery, 61(10), 543-547, 2015.
- >/>6>8A case of implant treatment and mandibular reconstruction using titanium mesh tray and autogenous iliac particulate cancellous bone in a patients with odontogenic myxofibroma: Ohta K., Takechi M., Shigeishi H., Okumura T., Miyauchi M., Takata T.: Japanese Journal of Oral and Maxillofacial Surgery, 64(3), 269-75, 2015.

B) Reviews

- >/>8Granular cell tumor, radicular cyst, adenomatoid odontogenic tumor, calcifying epithelial odontogenic tumor Miyauchi M., Obayashi M.: Quick reference in pathological diagnosis. (by standard editorial committee) Pathology and Clinical Medicine Special issue, 4849, 535 4, 2015.
- >/>8Power of Saliva Ogawa I., Kitagawa M., Obayashi M., Hara K.: DHstyle, 9(3), 336 2015.

C) Publications

- >/>8Ameloblastoma, Squamous odontogenic tumorAtlas of pathologically differential diagnosis of tumors. Head and neck tumors (Morinaga S., Takata T., Nagao T. eds)Takata T: Bunkodo (Tokyo), 115-122, 2015.
- >/>8Clear cell carcinoma, NGSThe differential diagnosis of salivary gland tumors composed of

- clear cells: Atlas of pathologically differential diagnosis of tumors Head and neck tumors (Morinaga S., Takata T., Nagao T. eds) Ogawa I.: Bunkodo (Tokyo), 50-53, 180186, 2015.
- >1>8 Precancerous lesions of squamous cell carcinoma in oral and oropharyngeal:Atlas of pathologically differential diagnosis of tumors. Head and neck tumor (Morinaga S., Takata T., Nagao T. eds.) Ogawa I.: Bunkodo (Tokyo), 385, 2015.
- >2>8 Cementoblastoma, ossifying fibroma, fibrous dysplasia : Atras of pathologically differential diagnosis of tumors. Head and neck tumors II (Morinaga S., Takata T., Nagao T. eds.) Miyauchi M.: Bunkodo (Tokyo), 158-163, 2015.

D) Other Publications

E) Presentation at Scientific Meeting

1) Special lectures in academic meetings

- >>8 The direction of the revised edition of WHO classification of odontogenic tumors Takata T.: The 69th Annual Meeting of The Japanese Stomatological Society (Osaka), 2015.
- >0>8 Liposomal lactoferrin regulates the progression of osteoclastic lesions such as periodontitis or rheumatoid arthritis: Takata T.: The 12th International Food Ingredients & Additives Exhibition and Conference (Tokyo)*2015.
- >1>8 Exploitation of predictive and diagnostic method for preterm birth targeting serum Galeotti: Miyauchi M., Kudo Y., Takata T.: Innovation Japan 2015 (Tokyo), 2015.
- >2>8 Exploitation of predictive and diagnostic method for preterm birth targeting serum Galeotti: Miyauchi M., Takata T.: New technology presentation meetings 2015 (Tokyo), 2015.
- >3>8 Periodontitis exacerbates hepatitis: Sakamoto S.: Three minutes thesis competition 2015 (Hiroshima), 2015.
- >4>8 Oral Pathology. IAP Slide Seminar: Ogawa I., Takata P. Pathological Education Seminar 2015 (Tokyo), 2015.
- >5>8 Prospective diagnostic of odontogenic tumor in dentistry: Takata T., Kumamoto Y., Miyauchi M.: Workshop national 1 ISPaMMI 2015 (Surabaya), 2015.
- >6>8 The relation between oral health and whole body: Dental infection of *P. gingivalis* is a risk factor of non-alcoholic steatohepatitis (NASH) Takata T: The meeting for the 50th anniversary of the foundation of Kanagawa Odontological Society (Yokosuka), 2015.

2) Presentation at International Scientific Meeting

- H HAmeloblastin induces tumor suppression and chemosensitivity in osteosarcoma: Ando T., Ogawa I., Miyauchi M., Takata T.: 9th General Session & Exhibition of the International Association for Dental Research (Boston), 2015.
- H HDental infection of *Porphyromonas gingivalis* (*P.g.*) exacerbates progression of ~~alco~~oholic steatohepatitis-Effects of *P.g.* infection and *P.g.*-LPS on Hepatocytes: Miyauchi M., Furusho H., Nagasaki A., Takata T.: 9th General Session & Exhibition of the International Association for Dental Research (Boston), 2015.
- H HTLR2 plays a key role in *P.gingivalis* induced NASH progeression: Furusho H., Miyauchi M., Nagasaki A., Sakamoto S., Takata T.: 6th Hiroshima Conference on Education and Science in Dentistry (Hiroshima), 2015.
- H HDental infection of *Porphyromonas gingivalis* exacerbates pathological progression of ~~alco~~oholic steatohepatitis (NASH): Miyauchi M., Furusho H., Nagasaki A., Sakamoto S., Ouhara K., Kurihara H., Takata T.: 6th Hiroshima Conference on Education and Science in Dentistry (Hiroshima), 2015.
- H HOral administration of liposomal bovine lactoferrin suppresses progression of rheumatoid arthritis: Yanagisawa S., Chea C., Ayuningtyas N. F., Tsuji H., Miyauchi M., Inubushi T., Ishikado A., Uesaki S., Imanaka H., Sugiyama E., Takata T.: 6th Hiroshima Conference on Education and Science in Dentistry (Hiroshima), 2015.
- H HBovine lactoferrin inhibits oral cancer proliferation and bone invasion: Chea C., Ayuningtyas N. F., Inubushi T., Subarnbhesaj A., Miyauchi M., Ishikado A., Imanaka H., Takata T.: 6th Hiroshima Conference on Education and Science in Dentistry (Hiroshima), 2015.
- H HOral administration of liposomal bovine lactoferrin suppresses progression of rheumatoid arthritis: Yanagisawa S., Chea C., Ayuningtyas N. F., Tsuji H., Miyauchi M., Inubushi T., Ishikado A., Uesaki S., Imanaka H., Sugiyama E., Takata T.: 12th International Conference on Lactoferrin: Structure, Function and Applications (Nagoya), 2015.
- H HBovine lactoferrin attenuates growth and bone invasion of oral squamous cell carcinoma: Chea C., Ayuningtyas N. F., Inubushi T., Subarnbhesaj A., Miyauchi M., Ishikado A., Imanaka H., Takata T.: 12th International Conference on Lactoferrin: Structure, Function and Applications (Nagoya), 2015.
- H HBovine Lactoferrin Specifically Inhibits Tumor Angiogenesis: Takata T.,

Annual Congress of the Japan Society of Obstetrics and Gynecology (Yokohama), 2015.

- >0>8Ameloblastin enhances chemosensitivity to doxorubicin via ~~Stat3~~ inactivation in osteosarcoma:
Ando T., Ogawa I., Miyauchi M., Takata T.: 104th annual meeting of the Japanese Society of Pathology(Nagoya), 2015.
- >1>8Stat3 feedback activation induces resistance to doxorubicin in osteosarcoma
Nishimura H., Charindra D., Ando T., Takata T.48th annual meeting of the Dental Association of Hiroshima University (Hiroshima), 2015.
- >2>8Bovine lactoferrin inhibits growth and invasion of oral squamous cell carcinoma
Ayuningtyas N. F., Inubushi T., Subarnbhesaj A., Miyauchi M., Ishikado A., Imanaka H., Takata T.
48th annual meeting of the Dental Association of Hiroshima University : 4

- >/>1>8 Study of the relationship between dental metal allergy and periodontal disease.: Kitagawa M., Nagasaki A., Tsuji H., Shintani T., Ogawa I., Kurihara H., Shiba T.: The 8th Annual Meeting of Japanese Society for Evidence and the Dental Professional (Yokosuka), 2015
- >/>2>8 Periodontitis exacerbates liver disease: the importance of oral pathogens examination and periodontal therapy Miyauchi M., Furusho H., Nagasaki A., Shintani T., Kurihara H., Cyayama K., Takata T.: The 8th Annual Meeting of The Japanese Society for Evidence and the Dental Professional (Yokosuka), 2015.
- >/>3>8 TLR2 plays a key role in *P. gingivalis*-induced NASH progression: Furusho H., Miyauchi M., Nagasaki A., Sakamoto S., Takata T.: The 63rd Annual Meeting of JADR (Hakata), 2015.
- >/>4>8 Comparative investigation of transcriptional regulatory mechanism of bone sialoprotein in osteoblast and cementoblast-like cells: Noda K., Yamazaki M., Iwai Y., Matsui S., Kato A., Takai H., Nakayama Y., Kitagawa M., Takata T., Ogata Y.: The 63rd Annual Meeting of JADR (Hakata), 2015.
- >/>5>8 Effects of inflammatory cytokines on human FSCP gene expression: Iwai Y., Noda K., Yamazaki M., Matsui S., Kato A., Takai H., Nakayama Y., Kitagawa M., Takata T., Ogata Y.: The 63rd Annual Meeting of JADR (Hakata), 2015.
- >/>6>8 Dental treatment can suppress the pathological progression of non-alcoholic steatohepatitis with odontogenic infection of *Porphyromonas gingivalis*: Nagasaki A., Sakamoto S., Furusho H., Miyauchi M., Takata T.: 54th Hiroshima Prefecture Dental Association 99th Hiroshima University Dental Society 10th Nippon Academy of Dental Technology Chugoku and Shikoku branch (Hiroshima), 2015.
- >/>7>8 Significance of fusion gene analysis for the differential diagnosis of mucoepidermoid carcinoma: Nagasaki A., Ogawa I., Ouchi T., Nagao T., Takata T.: 50th Annual Meeting of Japan Salivary Gland Society (Tokyo), 2015.

4) Case Reports at Scientific Meeting

- >/>8 Palatal tumor (Epithelial-myoepithelial carcinoma with sebaceous differentiation): Ogawa I., Nakano R., Sakaida N., Takata T.: 17th Academic Meeting of Chugoku-Shikoku Branch of the Japanese Society of Pathology (Okayama), 2015.
- >/>8 A tumor of oral floor (Squamous cell carcinoma, poorly differentiated, clear cell dominant): Furusho H., Nagasaki A., Miyauchi M., Ogawa I., Tani R., Suei Y., Takata T.: 64th Meeting of Hiroshima Pathological Conference (Hiroshima), 2015.
- >1>8 Multiple warty lesions of oral mucosa (Cowden syndrome): Ogawa I., Obayashi M., Kanda T., Toratani S., Okamoto T., Takata T.: 26th Annual Meeting of Japanese Society of Oral Pathology (Sapporo), 2015.

- >2>8A tumor of mandible(Ameloblastoma with ectomesenchymal stroma)>8Yada N>*Miyamoto I>*
Kanako T>*Yoshioka I., Ogawa I., Takata T., Matsuo K.: The 20th Annual Meeting of Japanese Society of Oral Pathology(Sapporo)*2015.
- >3>8A case of histiocystic necrotizing lymphadenitis (Kikuchi's Disease) the operation of neck dissection of lymph node metastasis of mucoepidermoid carcinoma of the palate: Higaki M Kanda T., Yasui T., Ando T., R Tani., Toratani S., Okamoto TThe 25th Annual meeting of the Japanese Society of Oral Medicine (Suita)2015.
- >4>8A case of Cowden syndrome diagnosed with multiple warty lesions of oral mucosa Hayashi S., Kanda T., Higaki M., Obayashi H., Nakatao H., Hamada M., Akagi E., Yamasaki S., Ando T., Ogawa I., Toratani S., Okamoto TThe 25th Annual meeting of the Japanese Society of Oral Medicine (Suita)2015.
- >5>8A recurrent case of ameloblastoma 20 years after enucleation Kanda T., Nakatao H., Obayashi H., Yasui T., Ando T., Tani R., Ogawa I., Hayashido Y., Toratani S., Okamoto TThe 63rd Meeting of ChugokuShikoku Branchof Japanese Stomatological Society (Okayama), 2015.
- >6>8A case of central mucoepidermoid carcinoma of the mandible Hidemura N., Suematsu M., Hayashido Y., Ando T., Ogawa I., Okamoto T.: The 63Meeting of ChugokuShikoku Branchof Japanese Stomatological Society (Okayama), 2015.
- >7>8A lesion of mandible (Cherubism) Tsuji H., Ando T., Kanda T., Hara J., Yonehara S., Ogawa I., Takata T.65th Meeting of Hiroshima Pathological Conference (Hiroshima)2015.
- >>>8A tumor of gallbladder (Carcinosarcoma) Yamanaka Y., Kuraoka M., Shimamoto F., Tachiyama Y., Kushitani K., Ando T., Hattori Y, Oshita Y., Matsugu Y., Sakamoto T., Nishisaka TMeeting of Hiroshima Pathological Conference (Hiroshima)2015.

(>2) Status of Receiving Grants Aid for Scientific Research

- >/>8Grantsin-Aid for Scientific Research (Scientific Research)(Continuance)Takata T.:Control of proliferation and bone invasion of oral cancer using liposomal lactoferrin 25293373. 3,600,000 yen
- >0>8Grantsin-Aid for Scientific Research (Scientific Research)(Continuance)Takata T.: A large scale study on odontogenic tumors in Asia aiming for the revision WHO classification of head and neck tumors. 26305033. 3,600,000 yen
- >1>8Grantsin-Aid for Scientific Research (Challenging Research)(Continuance)Takata T.: Development of diagnostic/preventive methods for odontogenic infection induced preterm birth and low birth weight targeting of Galeosin 26670802. 1,500,000 yen
- >2>8“Base of knowledgeAichi” Joint research project of emphasisresearch program (Continuance) Takata T.: Development of gas sensing device and analysis of relationships between human

respiratory/skin gas and disease, 1,80,000 yen

- >3>8 Grants-in-Aid for Scientific Research (Scientific Research(C)) (Continuance): Miyauchi M.: Clarification of pathological progression mechanisms nonalcoholic steatohepatitis caused by dental infection of periodontal pathogen 25462855. 1,000,000 yen
- >4>8 Grants-in-Aid for Scientific Research(Young Scientists (B)) (Continuance) Furusho H.: The role of TLR2 in NASH progression caused by *P. gingivalis* odonotogenic infection 26861574. 1,500,000 yen
- >5>8 Grants-in-Aid for strengthening and accelerating of national university reform "Specific support type" (New): Ando T, 6,000,000 yen
- >6>8 Donated fund from Sanstar Co. Ltd. (Continuance): Takata T. (Study on periodontitis)
- >7>8 Donated fund for Hiroshima Prefecture tumor registration business (Continuance): Takata T.
- >/>8 Donated fund from Mitsubishi Mihara Hospital (Continuance) Takata T. (Study on diagnosis for oral disease)

(>3) Academic Awards

- >/>8 Hanako Umehara 48th annual meeting of the Dental Association of Hiroshima University Encouragement Award
- >0>8 Dyshafilia Charindra The award from the Dean of Hiroshima University
- >1>8 Atsuhiro Nagasaki 6th Hiroshima Conference on Education and Science in Dentistry Poster Award
- >2>8 Shunryo Yanagisawa 6th Hiroshima Conference on Education and Science in Dentistry Poster Award
- >3>8 Hisako Furusho 6th Hiroshima Conference on Education and Science in Dentistry Poster Award

Basic Life Sciences

Department of Cellular and Molecular Pharmacology

>&1>'Staff and Students

Professor: Takashi Kanematsu

Assistant professor: Kae Harada, Satoshi Asano, Yousuke Yamawaki

Professor (Part-time): Katsuya Morita, Toshiyuki Sasaguri, Minoru Wakamori, Takayuki Tsukuba, Akira Toyofuku, Tetsu Okumura

Graduate student: Masaki Hayashiuchi, Yuka Maetani, Yuka Kikuchi

Collaborator: Kana Oue (Hiroshima University Hospital Medical Staff)

Undergraduate student (Advanced Dental Research course): Masaki Yokoyama (6th), Seiki Tomoyuki (6th), Sakiho Tsuyama (6th), Satomi Shirawachi (4th), Yuri Taniguchi (4th)

>&2>'Main Research Activities

1>Studies on the molecular mechanisms of GABA receptor signaling in the central nervous system

2>Studies on the regulatory mechanism of food intake and energy metabolism

3>Studies on the roles of a new autophagy-related molecule in autophagy pathway

4>Studies on the mechanisms for neuropathic pain and the development of novel medicaments.

5>Studied on the mechanisms of cell migration regulated by a new molecule.

6>Studies on the molecular mechanisms of thermogenesis in brown adipocytes.

7>Studies on the relationship between immune systems and depression behavior.

>&3>'Research Achievements

A>'Original Papers

1>Selective blockade of N-methyl-D-aspartate channels in combination with dopamine receptor antagonism induces loss of the righting reflex in mice, but not immobility. Kikuchi N, Irifune M, Shimizu Y, Yoshida K, Morita K, Kanematsu T, Morioka N, Nakata Y, Sakai N. Psychopharmacology (Berl). 2015;232(1):3946.

2>Enhanced lateral inhibition in the barrel cortex by deletion of phospholipase C γ 1 catalytically inactive protein1/2 in mice. Toyoda H, Saito M, Sato H, Kawano T, Kawakami S, Yatani H, Kanematsu T, Hirata M, Kang Y. Pflugers Arch. 2015;467(7):14456.

3>Enhanced desensitization followed by unusual resensitization in GABA A receptors in phospholipase

C-related catalytically inactive protein/2 doubleknockout mice. Toyoda H, Saito M, Sato H, Tanaka T, Ogawa T, Yatani H, Kawano T, Kanematsu T, Hirata M, Kang Y. Pflugers Arch. 2015;467(2):267–284.

4>E>Evaluation of the efficiency of denture cleaners for removing denture adhesives.-Hada K, Hong G, Abekura H, Murata H. Gerodontology. 2015 doi: 10.1111/ger.12183.

Ishiyaku Publishers, Inc. (Tokyo), 2015

D) Other Publications

E) Presentation at Scientific Meeting

1. Usability of AUDIT System of Hiroshima Safety Dental service Support network to improve the prevention step for nosocomial infection in the dental clinic
Tomoyuki Iwata, Noriyoshi Mizuno, Miyuki Nakaoka, Takayoshi Nagahara, Yumi Kojii, Ohta, Hideki Shiba, Akihiro Sawa, Kazuhiro Tsuga and Hidemi Kurihara
The 30th Annual meeting of the Japanese Society for Infection Prevention and Control (2015 February, Kobe)
2. *Porphyromonas gingivalis* infection exacerbates rheumatoid arthritis in mice model. Masahiro Yamakawa, Kazuhisa Ouhara, Mikihito Kajiya, Mizuho Kittaka, Katsuhiro Takeda, Takako Fujita, Hideki Shiba, Tsuyoshi Fujita and Hidemi Kurihara
The Japan Society for Clinical Immunology (2015 February, Okinawa)
3. A Role of Receptor for Advanced Glycation Endproducts in Gingival Epithelial Cells
Yuushi Uchida, K. Akutagawa, K. Ouhara, T. Fujita, H. Shiba, J. Katz, S. Cha, H. Kurihara
The 93rd IADR general Session & Exhibition (2015 March, Boston/USA)
4. The molecular analysis of Rheumatoid Arthritis associated gene LRG1 in periodontitis
Kazuhsia Ouhara, Syuichi Munenaga, Masahiro Yamakawa, Mikihito Kajiya, Satoshi Yamasaki, Tsuyoshi Fujita, Hideki Shiba, Eiji Sugiyama, Hidemi Kurihara
The 93rd IADR general Session & Exhibition (2015 March, Boston/USA)
5. *Porphyromonas gingivalis* infection exacerbates rheumatoid arthritis in mice model. Masahiro

- Yamakawa, Kazuhisa Ouhara, Mikihito Kajiya, Mizuho Kittaka, Katsuhiro Takeda, Takako Fujita, Hideki Shiba, Tsuyoshi Fujita and Hidemi Kurihara
 The 93rd IADR general Session & Exhibition'2015 March, Boston/USA'
6. BDNF Regulates p75NK Signaling Cascade to induce Gingival epithelial Cells Apoptosis.
 Kei Kashiwai, Hidemi Kurihara, Mikihito Kajiya, Shinji Matsuda, Katsuhiro Takeda, Tsuyoshi Fujita and Hideki Shiba
 The 93rd IADR general Session & Exhibition'2015 March, Boston/USA'
7. Evidence for Inflammatory Bone Resorption in Cherubism Mice Lacki~~ngs~~
 Joshua Prather, Mizuho Kittaka, Yasuyoshi Ueki
 The 93rd IADR general Session & Exhibition'2015 March, Boston/USA'
8. The development of immunomodulatory Clumps of a MSC/ECM complex for novel allograft cell transplantation therapy
 Kei Takeshita, Mikihito Kajiya, Manabu Takewaki, Nao Komatsu, Kazuhisa Ouhara, Tomoyuki Iwata, Tsuyoshi Fujita, Hideki Shiba, Hidemi Kurihara
 The 58th spring meeting of the Japanese society of Periodontology (2015 May, Chiba)
9. (1) H F W V R I D F W L Y D W L RatenR/WnW pathway DoQ Rhe differentiation of bone marrow-derived mesenchymal stem cells into cementoblast like cells
 Yusuke Aida, Hidemi Kurihara Koichi Kato
 The 58th spring meeting of the Japanese society of Periodontology (2015 May, Chiba)
10. Therapy for furcation involvement with enamel projection
 Tsuyoshi Fujita, Hidemi Kurihara
 The 58th spring meeting of the Japanese society of Periodontology (2015 May, Chiba)
11. To establish antinflammatory cytokine producing clumps of MSCs/ECM-MSCs>'complex ex vivo
 Kei Takeshita, Mikihito Kajiya, Manabu Takewaki, Nao Komatsu, Kazuhisa Ouhara, Tomoyuki Iwata, Tsuyoshi Fujita, Hideki Shiba, Hidemi Kurihara
 The 88th of Japan Tissue Culture Association'2015 May, Hiroshima'
12. The oral infection of *Porphyromonas gingivalis* exacerbates the joint destruction in the model mice of rheumatoid arthritis
 Syuichi Munenaga, Kazuhisa Ouhara, Masahiro Yamakawa, Mikihito Kajiya, Katsuhiro Takeda, Yushi Uchida, Kei Takeshita, Noriyoshi Mizuno, Tsuyoshi Fujita, Hidemi Kurihara
 The 142nd Meeting of the Japanese Society of Conservative Dentistry (2015 June, Kitakyusyu)
13. Elucidation of the mechanisms of Calcineurin inhibitor induced gingival hyperplasia
 A. Okanobu, S. Matsuda, M. Kajiya, N. Mizuno, T. Fujita, and H. Kurihara
 The 142nd Meeting of the Japanese Society of Conservative Dentistry (2015 June, Kitakyusyu)
14. Effect on the expression and activity of histone deacetylase by humoral factors secreted by periodontal cells
 Keita Takahashi, Tomoyuki Iwata, Eri Kaneda, Takayoshi Nagahara, Minami Yoshioka, Hidemi Kurihara
 The 142nd Meeting of the Japanese Society of Conservative Dentistry (2015 June, Kitakyusyu)
15. Behavior of clumps of mesenchymal stem cells against the stimulation of bacterial components and

2015

inflammatory cytokines

Nguyen Quoc Truong, Mikihito Kajiya, Manabu Takewaki, Kei Takeshita, Tsuyoshi Fujita, Hidemi Kurihara

The

25. Component of periodontal pathogen stimulates TGFU H O H D V L Q J I U R P H [W U D F H O O X O D U
gingival epithelial cell apoptosis
Tetsuya Yoshimoto, Tsuyoshi Fujita, Mikihito Kajiya, Kazuhisa Ouhara, Hidemi Kurihara
The 63rd Annual Meeting of Japanese Association for Dental Research 2015 October, Fukuoka
26. *Porphyromonas gingivalis* infection exacerbates rheumatoid arthritis in mice model. Masahiro Yamakawa, Kazuhisa Ouhara, Mikihito Kajiya, Mizuho Kittaka, Katsuhiro Takeda, Takako Fujita, Hideki Shiba, Tsuyoshi Fujita and Hidemi Kurihara
The 63rd Annual Meeting of Japanese Association for Dental Research Hatton Award Finalists 2015 >2015 October, Fukuoka
27. Trial of Examination of several Oral Functions in Periodontal Patients
Yuushi Uchida, Noriyoshi Mizuno, Tsuyoshi Fujita, Hidemi Kurihara
Workshop by ChugokuShikoku regional 3 universities of the Japanese society of Periodontology/ChugokuShikoku regional branch of the Japanese academy of clinical periodontology 2015 October, Tokushima
28. *Porphyromonas gingivalis* 2

F) Special lectures in academic meetings

1. New approach for Dental service safety: Hidemi Kurihara; Scientific lecture for Hiroshima branch in alumni association of Hiroshima University Faculty of Dentistry (2015 January, Hiroshima)
2. The effect of periodontopathogenic bacterium, *Porphyromonas gingivalis*, against systemic diseases: Kazuhisa Ouhara; The 48th Annual Meeting of the Japanese Association of Germfree Life and Gnotobiology (2015 January, Hiroshima)
3. New insight for response of host-subsurface bacteria in clinical medicine and dentistry: Hidemi Kurihara; The 48th Japanese Association of Germfree Life and Gnotobiology (2015 January, Hiroshima)
4. New medical and dental cooperation with a focus on periodontal disease: Hidemi Kurihara; Izumo diabetes Joint Conference (2015 March, Izumo)
5. Consider management for injured tooth in terms of oral medicine: Hidemi Kurihara; The 15th Japan Association of Dental Traumatology (2015 July, Kitakyushu)
6. 3D culture techniques open up a new horizon for effective tissue regenerative therapy: Mikihito Kajiya; The 88th of Japan Tissue Culture Association (2015 May, Hiroshima)
7. Pleiotropic consideration in dental care for aged persons: Hidemi Kurihara; The 57th fall meeting of the Japanese society of Periodontology (2015 September, Hamamatsu)
8. Periodontology in superging society: Hidemi Kurihara; The 57th fall meeting of the Japanese society of Periodontology (2015 September, Hamamatsu)
9. Consider necessity of clinical examination with medical and dental co-operation: Periodontal disease, diabetes mellitus and cardiovascular lesions: Hidemi Kurihara; The 8th annual meeting of Japanese Society for Evidence and the Dental Professional (2015 October, Yokosuka)
10. The effect of periodontopathogenic bacteria, *Porphyromonas gingivalis*, against the onset of rheumatoid arthritis: Kazuhisa Ouhara, Masahiro Yamakawa, Syuichi Munenaga, Tsuyoshi Fujita, Hidemi Kurihara; The 6th Hiroshima Conference (2015 October, Hiroshima)
11. Investigation of specialty in dental conservative treatment: Hidemi Kurihara; The 13rd Meeting of the Japanese Society of Conservative Dentistry (2015 November, Tokyo)

(4) Status of Receiving Grants Aid for Scientific Research.

1. Grants in aid for scientific research: Hidemi Kurihara (2014) 630085
2. Grants in aid for scientific research: Mikihito Kajiya (2016) 618140
3. Grants in aid for scientific research: Yuushi Uchida (2015) 629600
4. Grants in aid for scientific research: Katsuhiro Takeda (2014) 632180
5. Grants in aid for scientific research: Shinji Matsuda (2016) 618150
6. Grants in aid for scientific research: Hidemi Kurihara (2015) H05053

7. Grantsin aid for scientific research Tsuyoshi Fujita: #15K11389
8. Grantsin aid for scientific research : Noriyoshi Mizuno: #15K11388
9. Grantsin aid for scientific research: Hideki Kurihara:#15K15766
10. Grantsin aid for scientific research Tomoyuki Iwata: #15K11215
11. Grantsin aid for scientific research : Kazuhisa Ouhara #15H11390
12. Grantsin aid for scientific research : Kei Kashiwa #15H06437
13. Hiroshima University the year of 2015 Grant for portent research: Masahiro Yamakawa
14. Hiroshima University the year of 2015 Grant for portent research: Tetsuya Yoshimoto
15. Hiroshima University education and research support foundation The year of 2015 grants for education and research Grantsfor scientific research by young researcher Tetsuya Yoshimoto
16. General foundation Ryokufukai The year of 2013 education and research prize for encouragement (Grant for young researcher grant) Tetsuya Yoshimoto
17. GSKJapan Research Grant 2015:Noriyoshi Mizuno
18. Research grants: Grants for research received from Hiroshima Prefecture: Hideki Shiba and others, Study on networkconstruction of dental practice for HIV infection
19. Research Grants on BDNF project by DENTSPLY International Hideki Kurihara
20. 20152016Grants on diagnosis for periodontitis by Shofu Co., Ltd.

(5) Award

1. Kazuhisa Ouhara

The 31th The Japanese Society of Dental Sciences for young investigator best presentation award
 "The clinical application of oriental medicine which can suppress the production of halitosis
 gas produced by *Porphyromonas gingivalis*

2>, Mikihito Kajiya

The Japanese society of conservative dentistry encouragement award
 "BDNF mimetic compound LM22A4 regulates cementoblast differentiation via the TrkB-ERK/Akt signaling cascade"

3. Masahiro Yamakawa

a) 6th Hiroshima Conference Young Scientist Award
 "*Porphyromonas gingivalis* infection exacerbates rheumatoid arthritis in mice model."

b) The 63rd Annual Meeting of Japanese Association for Dental Research Hatton Award Finalists 2015

"*Porphyromonas gingivalis* infection exacerbates rheumatoid arthritis in mice model."

4. Kei Kashiwai

6th Hiroshima Conference on Education and Science in Dentistry award

2015

"Distinction between cell proliferation and apoptosis signals regulated by BDNF in human periodontal ligament cells and gingival epithelial cells

Visiting Researcher: ROSLI Siti Nur Zawani Binti, Sirika Chhetri-August

(2) Main Research Activities

1. Gene/molecular diagnosis and therapy for oral cancer and salivary gland tumors. (cancer stem cells, growth factors, growth factor receptors, invasion and metastasis, tumor angiogenesis, molecular/gene target therapy).
 2. Study on molecular/genetic diagnosis and therapy for oral/maxillofacial deformities.
 3. Establishment and characterization of human induced pluripotent stem (iPS) cells derived from human pulp cells in serum-free cell culture.
 4. Generation of human induced pluripotent stem (iPS) cells ~~either~~ from a patient with oral-maxillofacial dysplasia, and clarifies the molecular mechanism.

and tooth through using undifferentiated pluripotent cells ~~derived~~ from Xenopus and mice. At present, we are conducting to regenerate jaw, eye and tooth by using mouse ES cells, human mesenchymal stem cells and human iPS cells.

9. Molecular epidemiological study on oral maxillofacial disease of the resident in Semipalatinsk Nuclear Test Site area in Kazakhstan.

(1) Staff and Students

Professor: Kazuhiro Tsuga

Associate Professor: Yasuhiko Abe, Mineka Yoshikawa, Takayasu Kubo

Associate Professor/Lecturer: Eyou Hiasa, Katsunori Koretake

Assistant Professor: Hiroshi Oue, Yohei Okazaki, Okada Shinsuke

Research Associate: Maho Takeuchi, Mariko Maruyama, Takahiro Mori

Graduate Student: Chiaki Higa, Aya Hiraoka, Kan kato, Keisuke Yasuda, Yoshifumi Oki, Hiromichi

kawano, Yukari Kinoshita, Masako Kobayashi, Yoko Shiota, Toshiyuki Takeda, Azusa

Kuroki, Miyuki Yokoi, Kawano Akira, Doi Kensuke

Administrative staff: Rinko Kurumi

(2) Main Research Activities

>/>8 Elucidation of the effect of prosthodontic treatments on the quality of life of elderly people.

>0>8 Removal prosthodontics and swallowing function of elderly people.

>1>8 Development and clinical application of functional oral rehabilitation utilizing tongue pressure measurement.

>2>8 Development and clinical application of new materials for oral implants.

>3>8 Development of "bidhybrid" artificial bone made of interconnected porous hydroxyapatite and mesenchymal stem cells.

>4>8 Elucidation of the effect of FGF on bone formation surrounding oral implants.

>5>8 Biomechanics analysis of prostheses and their surrounding bone supported by implants.

(3) Research Achievements

A) Original Papers (including Case Reports)

- >/>8 Application of simple swallowing provocation test with fiberoptic endoscopic evaluation of swallowing in a cross-sectional study: Tejima C, Kikutani T, Takahashi N, Tamura F, Yoshida M.: BMC Geriatrics, 16,15:48. doi: 10.1186/s12877-00495, 2015.
- >0>8 Influence of implant surface topography on primary stability in a standardized osteoporosis rabbit model study: Oue H, Doi K, Oki Y, Makihara Y, Kubo T, Perrotti V, Piattelli A, Akagawa Y, Tsuga K.: Journal of Functional Biomaterials, 6, 1432, 2015.
- >1>8 The Effect of Superstructures Connected to Implants with Different Surface Properties on the Surrounding Bone: Koretake K, Oue H, Okada S, Takaeda Y, Doi K, Akagawa Y, Tsuga K.: Journal of Functional Biomaterials , 6, 62333, 2015.

B) Review

C) Publications

D) Other Publications

E) Presentation at Scientific Meeting

- >/>8 Effect of intermittent parathyroid hormone (PTH) administration on osseointegration aspects in rabbit osteoporosis model: Doi K, Kubo T, Oki Y, Makihara Y, Tsuga K.: European Association for Osseointegration The 24th annual scientific meeting (Stockholm) , 2015,
- >0>8 A Novel isoform of FGFR2 Modulates FGFR2 Signaling in Osteochondrogenesis: Yoshioka H, Kagawa K, Okita S, Kuremoto K, Takei Y, Minamizaki T, Tanimoto K, Tsuga K, Yoshiko Y : 6th Hiroshima Conference on Education and Science in Dentistry (Hiroshima) , 2015>,
- >1>8 Intermittent parathyroid hormone administration enhances primary stability and osseointegration on glucocorticoid induced osteoporosis: Doi K, Kubo T, Oki Y, Makihara Y, Tsuga K.: 6th Hiroshima Conference on Education and Science in Dentistry (Hiroshima) , 2015>,
- >2>8 Newly Identified FGFR2 Isoform Modulates FGFR2 Signaling During Osteochondrogenesis: Kagawa K, Yoshioka H, Okita S, Kuremoto K, Takei Y, Minamizaki T, Tanimoto K, Tsuga K, Yoshiko : The American Society for Bone and Mineral Research 2015 (Seattle), 2015

8. Reply: To PMID 23307804Motokawa M, Kaku M, Matsuda Y, Oki N, Sugino H, Su~~o~~i Darendeliler MA, TanimotoK.:Eur J Orthod. 37(1): 119, 2015.
9. A patient with maxillary protrusion accompanied with open bite treated by bimaxillary orthognathic surgeryKunimatsu R, Asakawa Y, Mitsuyoshi T, Oki N, Okamoto Y, Gunji H, Ohtani J, Tanimoto KThe Journal of chshikoku orthodontic society 27(1):1-72, 2015.
10. A case of edge-to-edge occlusion with congenital missing of the maxillary premolars treated with auto-transplantation of the mandibular premolarsWatanabe A, Kaku M, Hiromi S, Tanne K Tanimoto K, Tanaka EThe Journal of chshikoku orthodontic society 27(1):23-30, 2015.

11. A treatment case of the relapse after 22 years of reten... Okamoto Y, Asakawa Y, Kunimatsu R, Mitsuyoshi T, Su SC, Gunji H, Tanne K, Tanimoto K: The Journal of chshikoku orthodontic society 27(1) 49-60, 2015.
12. A case of Crouzon syndrome applied by ~~temporomandibular joint~~ surgery Yoshimi Y, Sumi K, Awada T, Abe T, Okita S, Nakajima K, Tanimoto K: The Journal of chshikoku orthodontic society 27(1); 7382, 2015.
13. Effects of Lowlevel Diode Laser Treatment on the Metabolism of Human Dental Pulp Cells Kunimatsu R, Tsuka Y, Gunji H, Yoshimi Y, Nakajima K, Tanimoto K.: Journal of Japanese Society for Laser Dentistry 26(1); 19, 2015.
14. An orthodontic treatment case of maxillary protrusion with closed upper central incisor Kojima SI, Kaku M, Koseki H, Sumi H, Shikata H, Abonti TH, Kojima ST, Yamamoto T, Tanimoto K: The Journal of Hiroshima Dental Association 42(1):6-10, 2015
15. An orthodontic case of skeletal Class III malocclusion with internal derangement of temporomandibular joint : Shinohara T, Watanabe K, Mizutani M, Izawa S, Horiuchi S, Kuroda S, Tanimoto K, Tanaka E: The Journal of chshikoku orthodontic society 27(1); 38, 2015.
16. Teeth bank for autotransplantation.: Kawata T., Kaku M.: Journal of the Japan Lingual Orthodontic Association 25: 189, 2015.

B) General remarks

1. Tanimoto K: Bone Regeneration by use of Mesenchymal Stem Cells for Treatment of Jaw Cleft – Utility and present issue.-The Journal of chshikoku orthodontic society 27(1);61-2015.

C) Books

D) PhD Thesis

E) Other publications

F) Presentation at Scientific Meeting

1. Irradiation effects of newly developed low temperature multi gas plasma jet on oral bacteria: Tahsin Raquib A, Kaku M., Kojima S., Sumi H., Shikata H., Kojima S., Tanimoto K.: 50th Year Anniversary Celebration 6th Hiroshima Conference on Education and Science in Dentistry (Hiroshima), 2015.
2. A Novel isoform of FGFR2 Modulates FGFR Signaling in Osteochondrogenesis: Yoshioka H., Kagawa K., Okita S., Kuremoto K., Takei Y., Minamizaki T., Tanimoto K., Tsuga

- K., Yoshiko Y.: 50th Year Anniversary Celebration 6th Hiroshima Conference on Education and Science in Dentistry (Hiroshima), 2015.
3. Changes of the airway and sleep breathing patterns of skeletal Class II children undergoing Activator therapy: Concepcion C., Ueda H., Kdm., Matsumura Y., Iwai K., Tanimoto .K 50th Year Anniversary Celebration 6th Hiroshima Conference on Education and Science in Dentistry (Hiroshima), 2015.
 4. MicroRNAs involved in bone metabolism are transported into matrix vesicles during bone formation Nakao Y., Takei Y., Minamizaki T., Yoshioka H., Ahmed F., Tanimoto K., Niida S., Yoshiko Y.: American Society for Bone and Mineral Research (Seattle), 2015.
 5. Newly identified FGFR2 isoform modulates FGFR signaling during osteochondrogenesis: Kagawa K., Yoshioka H., Okita S., Kuremoto K., Takei Y., Minamizaki T., Tanimoto K., Tsuga K., Yoshiko Y.: The American Society for Bone and Mineral Research 2015(Seattle), 2015.
 6. Canges of the airway and sleep breathing patterns of skeletal classchildren undergoing activator therapy : Concepcion C, Ueda H, Matsumura Y,

- Makoto Yanoshita., Hiroki Ueda., Kotaro Tanimoto.:8th International Orthodontic Congress(London), 2015.
14. Amelogenin isoforms effect the proliferation in human periodontal tissue: Yoshimi Y., Kunimatsu R., Hirose N., Awada T., Mitsuyoshi T., Gunji H., Takata T., Tanne K., Tanimoto K.: 8th International orthodontic congress (London), 2015.
 15. Effects of Low molecular weight hyaluronan on the expression of PRG4 through CD44 in synovial membrane cell: Mitsuyoshi T, Asakawa Y , Hirose N, Okamoto Y, Yanoshita M, Tannek, TanimotoK..: 8th international orthodontic congress(London), 2015.
 16. Irradiation effects of newly developed low temperature multi gas plasma jet on oral bacteria: Tahsin A, Kaku M, Kojima S, Sumi H, Shikata H, Kojima S, Yamamoto T, Tanimoto K.: The 48th Annual Meeting of the Hiroshima University Dental Society (Hiroshima), 2015.
 17. NT-4 promotes differentiation of induced pluripotent stem cells into dental epithelial progenitorlike cells.: Abdullah AN., Miyauchi S., Tanimoto K., Kato K.: The 48th Annual Meeting of the Hiroshima University Dental Society (Hiroshima), 2015.
 18. High-frequency lowlevel diode laser irradiation enhances the proliferation of cementoblast lineage cells: Gunji H., Kunimatsu R., Tsuka Y., Awada T., Okamoto Y., Tanimoto K.: American association of orthodontists meeting (SanFrancisco, CA, USA), 2015.
 19. Amelogenin enhances the proliferation of cementoblast linage cells: Kunimatsu R., Yoshimi Y., Awada T.,Tanimoto K.: American association of orthodontists meeting (SanFrancisco, CA, USA), 2015.
 20. A case of autotransplantation of a cryopreserved tooth with magnetic field programmed freezer: Shikata H., Kaku M., Motokawa M., Kojima S., Sumi H., Kojima S., Tanne K., Tanimoto K.: American association of orthodontists meeting (SanFrancisco, CA, USA), 2015.
 21. Irradiation effects of newly developed low temperature multi gas plasma jet on oral bacteria: Tahsin A, Kaku M, Kojima S, Sumi H, Shikata H, Kojima S, Yamamoto T, Tanimoto K.: American association of orthodontists meeting (SanFrancisco, CA, USA), 2015.
 22. Influences of pulpectomy on root resorption during experimental tooth movement: Sumi H, Kaku M, Motokawa M, Matsuda Y, Kojima S, Shikata H, Tanimoto K.: American association of orthodontists meeting (SanFrancisco, CA, USA), 2015.
 23. Changes of the airway and sleep apneath patterns of skeletal Class children undergoing activator therapy: Gncepcion C., Ueda H., Koh M., Matsumura Y., Tanimoto K.: The 74 Annual Meeting of the Japanese Orthodontic Society (Fukuoka), 2015.
 24. Amelogenin variants increased the proliferation of HCEM through the MAPK/ERK signaling pathway: Yoshimi Y., Kunimatsu R., Awada T., Hirose N., Mitsuyoshi T., Sumi K., Gunji H., Nakajima K., Kimura A., Miyauchi M., Takata T., Tanimoto K.: The 74 Annual Meeting of the Japanese Orthodontic Society(Fukuoka), 2015.

25. Effects of human full length amelogenin on the proliferation of human osteoblasts: Kunimatsu R., Yoshimi Y., Awada T., Asakawa Y., Hirose N., Mitsuyoshi T., Sumi K., Gunji H., Tsuka Y., Tanne K., Tanimoto K.: The 74th Annual Meeting of the Japanese Orthodontic Society (Fukuoka), 2015.
26. Bone tissue regeneration using SDF-loaded scaffolds : Date, Nakano A Yamakado N Hirata I, Tanimoto K, Kato K .: The 65th General Session of the Japanese Society for Dental Materials and Devices (Sendai), 2015
27. The effects of growth factors and collagen on the differentiation of mesenchymal stem cells into hyaline and fibrous cartilage : Sugino H, Kanawa M, Tanimoto K, Katō K : The 65th General Session of the Japanese Society for Dental Materials and Devices (Sendai), 2015.
28. Effects of low level diode laser irradiation on the proliferation of human periodontal ligament cells: Gunji H, Kunimatsu R, Yoshimi Y, Tsuka Y, Nakajima K, Tanimoto K.: The 27th Annual Meeting of the Japanese Society for Laser Dentistry (Sapporo), 2015
29. Effects of low level Nd:YAG laser irradiation on the proliferation of human osteoblasts : Tsuka Y, Kunimatsu R, Yoshimi Y, Gunji H, Nakajima K, Tanimoto K.: The 27th Annual Meeting of the Japanese Society for Laser Dentistry (Sapporo), 2015
30. A Mandibular Prognathism With Open Bite Case-treat with Glossectomy After Orthognathic Treatment: Date T, Koh M, Nakao Y, Hirose N, Ueda H, Ono S, Tanimoto K.: The 25th Annual Meeting of the Japanese Society for Jaw Deformities(Tokyo), 2015.
31. Two-jaw osteotomy following high condylectomy for treatment of a patient with facial asymmetry caused by unilateral condylar hyperplasia: Nakagawa T, Ono S, Kaku M, Kojima S, Sumi H, Uetsuki R, Tanimoto K, Takechi M.: The 25th Annual Meeting of the Japanese Society for Jaw Deformities(Tokyo), 2015
32. A case of orthognathic surgical correction of mandibular prognathism with loss of molar occlusion Ono S, Nakagawa T, Ishikawa E, Oki N, Tanimoto K, Takechi M.: The 25th Annual Meeting of the Japanese Society for Jaw Deformities(Tokyo), 2015.
33. An orthodontic treatment case of mandibular protrusion with asymmetry of the mandible Kojima S, Kaku M, Toratani S, Okamoto K, Sumi H, Kogima S, Tanimoto K.: The 25th Annual Meeting of the Japanese Society for Jaw Deformities(Tokyo), 2015.
34. Statistical analysis of cleft lip and palate association with family history in Hiroshima university hospital: Okita S, Sumi K, Mitsuyoshi T, Yoshimi Y, Tsuka Y, Awada T, Fujii E, Abe T, Nakajima K, Tanimoto K.: The 57th Annual Meeting of Oh-Shikoku Orthodontic Society (Takamatsu), 2015.
35. An orthodontic treatment case with Noonan syndrome: Yamamoto T, Kojima S, Kaku M, Sumi H, Shikata H, Kojima S, T, Tanimoto K. : The 57th Annual Meeting of Chōshikoku Orthodontic Society(Takamatsu), 2015.

36. Statistical analysis of patients with congenital disorder attending the orthodontic clinic at Hiroshima University Hospital Yanoshita M, Koh M, Hirose N, Matsumura Y, Conception Sumi C, Ueda H, Tanimoto K. : The 57th Annual Meeting of Chūshikoku Orthodontic Society (Takamatsu), 2015.
37. A case report of severe skeletal mandibular protrusion : -year 25 follow-up study after orthognathic surgery: Nakajima K, Yoshimi Y, Sumi K, Tsuka Y, Awada T, Fuji E, Sugino H, Abe T, Okita S, Tanimoto K. : The 57th Annual Meeting of Chūshikoku Orthodontic Society (Takamatsu) ,2015.
38. Effect of Cilengitide on the metabolism of chondrocytes under excessive mechanical stimuli Okamoto Y, Hirose N, Asakawa Y, Kunimatsu R, Mitsuyoshi T, Sumi C, Yanoshita M, Tanne K, Tanimoto K.: The 27th Annual Meeting of the Society for the Temporomandibular Joint (Nagoya), 2015
39. Effect of hyaluronan on the expression of superficial zone protein through CD44 in synovial membrane cells : Mitsuyoshi T, Asakawa Y, Hirose N, Awada T, Okamoto Y, Yanoshita M, Tanimoto K.: The 27th Annual Meeting of the Society for the Temporomandibular Joint (Nagoya), 2015
40. The effect of bone marrow-derived MSCs on osteoclast precursor for bone regeneration of Jaw Cleft : Abe T, Sumi K, Oki N, Kunimatsu R, Sugiyama M, Tanimoto K.:The 9th Annual Meeting of Japanese Cleft Palate Association(Tokyo), 2015.
41. Bone regeneration in artificialjaw cleft by use of MSCs The role of MSCs in angiogenesis Oki N, Sumi K, Abe T, Sugiyama M, Tanimoto K.:The 9th Annual Meeting of Japanese Cleft Palate Association(Tokyo), 2015
42. Cryopreservation of mesenchymal stem cells by a programmed freezer with a magnetic field : Shikata H, Tanimoto K.: The 29th Annual Meeting of Japanese Cleft Palate Association(Tokyo), 2015
43. Immunohistochemical examination of pulp tissue during experimental tooth movement.: Sumi H., Kaku M., Kojima S., Shikata H., Tahsin A., Kojima S., Yamamoto T., Tanne K., Tanimoto K.: The 74th Annual Meeting of the Japanese Orthodontic Society (Fukuoka), 2015.
44. Tongue palate contact changes in clients with skeletal mandibular protrusion after SSRO by electropalatography.: Kojima S., Kaku M., Kojima S., Sumi H., Shikata H., Yamamoto T., Yasuhara Y., Yamamoto I., Tanimoto K., Tanimoto K.: The 74th Annual Meeting of the Japanese Orthodontic Society (Fukuoka), 2015.
45. Bone regeneration after transplantation of cryopreserved MSCs by a programmed freezer with a magnetic field Shikata H., Kaku M., Kojima S., Sumi H., Kojima S., Yamamoto T., Kawata T., Tanne K., Tanimoto K.: The 74th Annual Meeting of the Japanese Orthodontic Society (Fukuoka), 2015.

46. Experimental study for safe and efficient orthodontic tooth movement in middle and advanced age: Fujii E., TsukaY.,Kunimatsu R., Hirose N., Tanimoto K.: The⁷Annual Meeting of the Japanese Orthodontic Society (Fukuoka), 2015.
47. Evaluatbn of the cleaning effect of tooth surface by use of nano particales from Shioiri K., Kunimatsu R., Hirose N.,Yoshimi Y., Awada T., Abe T., Okita S., Nakao Y., Tanimoto K.: The 74th Annual Meeting of the Japanese Orthodontic Society (Fukuoka), 2015.
48. Promoted bone regeneration through recruitment endogeneous cells: Date T., Nakano A Yamakado N Hattori S, Hirata I., Kihara T.,Tanimoto K, Katou K:The 74th Annual Meeting of the Japanese Orthodontic Society (Fukuoka), 2015.
49. Evaluation of the mechanical and physical property of sapphire crystal ceramic bracket in orthodontic treatment: Nakajima K., Kunimatsu R., Sumi K., Yoshimi Y., Okamoto Y., Gunji H., Hirose N., Mitsuyoshi T., Kimura A., Tanimoto K.: The 74th Annual Meeting of the Japanese Orthodontic Society (Fukuoka), 2015.
50. Statistical investigation of Cleft Lip and/or Palate patients at Department of Orthodontics Hiroshima University: Abe T, Yoshimi Y, Kunimatsu R., Sumi K., Oki N.,Awada T., Hirose N., Mitsuyoshi T., Tanimoto K.: The 74Annual Meeting of the Japanese Orthodontic Society (Fukuoka), 2015.
51. An Orthodontic treatment case with orthognathic surgery applied to an adult patient with maxillary protrusion: Kimura A., Kunimatsu R., Ohtani J., Asakawa Y., Mitsuyoshi T., Oki N., Okamob Y., Gunji H., Tanimoto K.: The 74

56. Amelogenin/LAMP 1 interaction enhances the proliferation of NHOst cells, through signaling pathway.: Kunitatsu R, Tsuka Y, Tanimoto K.: The 35 th Annual Meeting of ~~Kinki~~Hokuriku of Society of Oral Implantology (Kanazawa), 2015.
57. Effects of low level Nd:YAG laser irradiation on the proliferation of human osteoblasts.:Tsuka Y, Kunitatsu R, Tanimoto K.The 35th Kinki HokurikuAnnual Meeting of the Japanese society of oral implantology (Kanazawa), 2015.
58. Histological evaluation of safe and efficient orthodontic tooth movement in middle and advanced age: Fujii E., Fujita T., Shirakura M., TsukaY., Tanimoto K.: The 54th Hiroshima University DentalSociety (Hiroshima), 2015.
59. A treatment of an adult crowding case with periodontal disease~~and~~temporomandibular disorder~~s~~:Awada T., Kunitatsu R., Ohkuma S., Ozaki N., Tanimoto K.: The 54th Hiroshima University DentalSociety (Hiroshima), 2015.
60. Two-jaw osteotomy following highcondylectomy for treatment of facial asymmetry patient caused by condylar hyperplasia:Nakagawa T, Ono S, Kaku M, KojimaSSumi H, Uetsuki R, Tanimoto K, Takechi M.The 48th Annual Meeting of the Hiroshima University Dental Society (Hiroshima), 2015.
61. Differentiation control to the hyaline / fibrocartilage of the mesenchymal stem cell : Sugino H, Kanawa M, Tanimoto K, Kato .k The 3rd Japanese society for Biomaterials~~kyo~~-Shikoku Symposium(Okayama)2015.
62. Bone tissue regeneration using SDFoaded scaffolds Date T, Nakano A, Yamakado N, Tanimoto K, Hirata I, Kato K.: The 3rd Japanese society for Biomaterials Cyu-ShikokuSymposium~~kyo~~Okayama)2015.

F) Academicsociety symposium and special lecture

1. Tanimoto K.: Detection of malocclusion in dental checkupThe points of exploration Hiroshima City Dental General Incorporated Association (Hiroshima), 2015.
2. Regeneration medicine and Orthodontic Treatment~~ability~~ of Mesenchymal Stem Cells and Current Problems: Hiroshima Shudo Dental Association (Hiroshima), 2015.
3. Tanimoto K.: Orthodontics and Regeneration Medicine~~the~~New Strategy of Bone Regeneration by use of Mesenchymal Stem Cells for Treatment of Jaw-CleftiesForum 2015 (Bandung), 2015.
4. Tanimoto K.: Orthodontic Treatment for Patients with Temporomandibular Disorders —Systematic Approach Based on the Basic ResearchDiesForum 2015, (Bandung), 2015.
5. Tanimoto K.: Temporomandibular Disorders and OrthodonticTreatment—Diagnosis and Systematic Approach~~—~~: Joint Scientific Meeting Dental Medicine UNAIR (Surabaya), 2015.

2015

6. Sumi K: The orthodontic approach for the patients ~~Wither~~ syndrome ~~HZ~~ In order to know the orthodontic treatment HZTurner syndrome Japanese Hiroshima Branch (Hiroshima) 2015

13. Collaborative research with Unitak Co., Ltd : Kunimatsu R.: Effects of metabolism on the specialized hybrid diode laser for orthodontic treatment. 385,000 yen.

(5) Commendation

1. Abe T.: The effect of bone marrow-derived MSCs on osteoclast precursor for bone regeneration of Jaw Cleft The 39th Annual Meeting of Japanese Cleft Palate Association Excellence Award, 2015.
2. Horie K.: Effects of bovine lactoferrin on extraterritorial facial pathological pain following a trigeminal nerve injury : The XII international conference on Lactoferrin, Structure, Function, and Applications Excellence Award, 2015.
3. Sugino H.: Differentiation control to the hyaline / fibrocartilage of the mesenchymal cell: The 3rd Japanese society for Biomaterials Shikoku Symposium Excellence Award 2015.
4. Concepcion C. Changes of the airway and sleep breathing patterns of skeletal Class III children undergoing activator therapy: The 74th Annual Meeting of the Japanese Orthodontic Society. Oral presentation Award.
5. Su SC: Effects of enzymatic degradation in temporomandibular joint under mechanical loading: The 28th TAO Annual Meeting & 2015 APOS Resident Forum. Oral presentation Award.

AIDS Res., 17, 179-183, 2015.

E) Presentation at Scientific Meeting

- 1 Dental treatment support of HIV positive inpatients in Hiroshima University Hospital : Okada M., Mastui K., Iwata T., Shintani T., Ogawa R., Ikeda Y., Kinoshita K., Takata N., Saito S., Yamasaki N., Fujii T. Shiba H. : The 29th Annual meeting of the Japanese Society for AIDS research (Tokyo), 2015.
- 2 Evaluation of the oral environment and taste function of the patients who take antiretroviral medicine : Shintani T., Yamasaki N., Iwata T., Saito S., Kitagawa M., Ogawa I., Okada M., Mastui K., Hamamoto K., Unei H., Fujita K., Ogawa R., Kinoshita K., Ikeda Y., Fujii T. Shiba H. : The 29th Annual meeting of the Japanese Society for AIDS research (Tokyo), 2015.
- 3 Survey on shade taking of dental residentsComparison between visual color matching and dental spectrophotometer Yano K., Mineoka A. : The 26th Japan Academy of Esthetic Dentistry (Tokyo), 2015.
- 4 Influences of CCL19CCR7 pathway on energy metabolism Tomomi S., Misaki I., Atsushi H., Takanaori S., Shintaro N., Akiko Y., Tomoichiro A., Nishimura F. : The 58th annual meeting of the

- japanese society of periodontology (Chiba), 2015.
- 5 Relationship between length variations of Ser/Asp repeats in phosphophoryn and in vitro precipitation of calcium phosphate : Kobuke S., Suzuki S., Hoshino H., Shiba H. : The 142th Japanese Society of Conservative Dentistry (Kitakyusyu), 2015.
 - 6 Role of the novel Platelet-activating factor (PAF) synthetase LPCAT2 on chronic pain ~~endo~~ mice : Motoyama N., Morita K., Kitayama T., Shiba H., Dohi T. : The 142th Japanese Society of Conservative Dentistry (Kitakyusyu), 2015.
 - 7 Exploration of a TNF.-inducing factor produced by pulp cells : Nagayasu S., Suzuki S., Kobuke S., Shiba H. : The 143th Japanese Society of Conservative Dentistry (Tokyo), 2015.
 - 8 Glycine transporter inhibitors relieve bone cancer pain Dohi T., Morita K., Motoyama N., Shiraishi S. : The 58th Annual Meeting of the Japanese Society for Neurochemistry (Omiya), 2015.

F) Special lectures in academic meetings

- 1 Information concerning performance of countermeasure for HIV infection in the Chugoku and Shikoku areas : Shiba H. : The first Liaison Council of AIDS treatment between AIDS core hospitals in the Chugoku and Shikoku areas (Hiroshima), 2015.
- 2 Overview: Think about DSPP study through morphological and functional perspectives, The usefulness of the modified recombinant DPP proteins in the hard tissue regeneration : Suzuki S. : The 56th Annual Meeting of the Japanese Society of Oral Biology, Satellite Symposium 12 (Niigata), 2015.

(4) Status of Receiving Grants-Aid for Scientific Research, etc.

- 1 Grant-in-Aid for Scientific Research (B) : Shiba H., Usefulness of the complex of the three regenerative elements as a therapeutic agent for regeneration against endodontic diseases : No. 15H05022, ¥6,500,000.
- 2 Research grants: Grants for research received from Hiroshima Prefecture : Shiba H., Study on networkconstruction of dental practice for HIV infection3,000,000.
- 3 2015 Hiroshima University Grant-in-Aid for Exploratory Research (Support for Young Scientists) : Mineoka A., Establishment of a new endodontic treatment with recombinant protein derived from teeth : ¥500,000.
- 4 Grants-in-Aid for Young scientists (B) : Suzuki S., Induction of pulpal wound healing by enhanced integrin-mediated signaling brought about by the amino acid cleavage at the sites close to the integrin-binding domain : No. 26861595, 1,400,000.
- 5 Grants-in-Aid for Young scientists (B) : Kobuke S., Development of hard tissue regeneration using

- recombinant DPP : No. 15K20405,700,000.
- 6 Grants-in-Aid for Young scientists (B) : Nagayasu S., Exploration of a TNF inducing factor produced by pulp cells 268615961 ¥1,950,000.
 - 7 General foundation Ryokufukai The year of 2015 education and research prize for encouragement (Grant for young researcher grant): Kobuke Anticancer function of noncoding RNA for regulation Dentin matrix protein gene expression: ¥500,000

(5) Academic Awards, etc.

- 1 Motoyama N. : Relief of Cancer Pain by Glycine Transporter Inhibitors. The prize for encouragement by Hiroshima University school of dentistry class reunion, 2015.

(6) Patents

- 1 Kurihara H., Kawaguchi H., Takeda K., Shiba H., Mizuno N., Yoshino H., Hasegawa N., Shinohara H. : Remedy and therapeutic method for periodontal diseases and pulpal diseases (Registration number ZL201210032750.8 (CN) and 9089606 (US)) (Patent applicant, TWO CELLS Co., Ltd., Kurihara H.)

Graduation Research Students: Yuya Ishida, Yuuta Masuhara, Shouta Fujimoto, Rina Niioka,

Moe Matsuo, Yuto Tanaka, Shou Higuchi, Waka Harada,

Moemi Nishida, Yuuki Higashiura, Shouke Suzuki, Hiroki Yanase

(2) Main Research Activities

- 1: Application of manufacturing system technologies (e. g., CAD/CAM, 3D printing) to dentistry
 - 2: 3-d modeling and computer simulation in dentistry
 - 3: Simulationbased analysis of work processes in dental technology
 - 4: Development and clinical application of oral appliances for treatment and protection
 - 5: Study on esthetic dentistry
 - 6: Study on dental education
 - 7: Study on sports dentistry (mouthguards)

(3) Research Achievements

A) Original Papers (including Case Reports)

- 1: ComputerAided Design and Fabrication of Finger Prostheses. Murayama T, Oono K, Tada M, Eguchi T, Nagami M, Tamamoto M Journal of Biomedical Science and Engineering, Vol. 8, pp. 98-103, 2015.
 - 2: Job shop scheduling with alternative machines. Experimental evaluation of the scheduling method using a genetic algorithm incorporating heuristic rules. Eguchi T., Kaweegitbundit P., Hoshino N., Daido T., Murayama T.: Proceedings of 2015 Annual Conference of Manufacturing Systems Division, The Japan Society of Mechanical Engineers. 0525, pp. 9596, 2015.
 - 3: Optimization of Job Shop Scheduling with Automatic and Manual Operations. Daido T., Eguchi T., Murayama T.: Proceedings of 53Annual Conference of Chugoku Shikoku Branch, The Japan

- Society of Mechanical Engineers No. 1511, 402, pp. 12, 2015.
- 4: Grouping of Tasks for Cooperative Product Development: Murayama T., Eguchi T., Ogawa A.: International Journal of Engineering and Technology, Vol. 7, Issue 2, pp. 57-62, 2015.
 - 5: Active Schedule Generation Algorithm that Makes Decisions According to Time Progress: Eguchi T., Hoshino N., Murayama T.: Proceedings of the 59th Annual Conference of the Institute of Systems, Control and Information Engineers No. 1226, pp. 14, 2015.
 - 6: Performance Evaluation of Novel Active Schedule Generation Algorithm: Iio S., Kishimoto T., Hoshino N., Eguchi T., Murayama T.: Proceedings of the Annual Conference of Japan Society for Design Engineering Chugoku Branch, No. 82, pp. 1720, 2015.
 - 7: Development of masking piece using 3d scanner and 3d printer: Murayama T., Niioka R., Umesaki S., Kawahara K., Eguchi T., Tamamoto M.: Proceedings of LIFE2015, pp. 12, 2015.
 - 8: Optimization of Job Shop Scheduling with Automatic and Manual Operations (Report): Daido T., Eguchi T., Murayama T.: Proceedings of the 2015 Annual Congress of The Japan Society of Mechanical Engineers No. 151, S1440103, pp. 5, 2015.
 - 9: Lead Time Minimization using a Release Time Decision Method Based on Scheduling: Eguchi T., Hoshino N., Kishimoto T., Iio T., Murayama T.: Proceedings of the 2015 Annual Congress of The Japan Society of Mechanical Engineers No. 151, S1440104, pp. 5, 2015.
 - 10: Active Schedule Generation Algorithm that Makes Decisions According to Time Progress: Eguchi T., Hoshino N., Kishimoto T., Iio T., Murayama T.: Proceedings of the 8th International Conference on Leading Edge Manufacturing in 21st Century (LEM2014), pp. 14, 2015.
 - 11: Study on schematic evaluation and objective assessment of dental laboratory techniques practices: Ozaki Y., Suese K., Tamamoto M., Ichikawa M., Koizumi J., Morikawa R., Sugita J.: Journal of Nippon Academy of Dental Technology, 36 (1), pp. 30-35, 2015.

B) Review

C) Publications

- 1: The Glossary of Prosthodontic Terms (5th ed.): Tamamoto M. (Edited by Japan Prosthodontic Society): Ishiyaku Pub., Inc 2015.
- 2: Collection of the state examination and key dental technicians (2016 edition): Tamamoto M. (Edited by Japan Society for Education of Dental Technology): Ishiyaku Pub., 2015.

D) Other Publications

E) Presentation at Scientific Meeting

- 1: Job shop scheduling with alternative machine: Experimental evaluation of the scheduling method using a genetic algorithm incorporating heuristic rule. Eguchi T., Kaweegitbundit P., Hoshino N., Daido T., Murayama T.: 2015 Annual Conference of Manufacturing Systems Division, The Japan Society of Mechanical Engineers (Sokohama), 2015.
- 2: Optimization of JobShop Scheduling with Automatic and Manual Operation. Daido T., Eguchi T., Murayama T.: 53rd Annual Conference of Chugoku Shikoku Branch, The Japan Society of Mechanical Engineers (Higashihiroshima), 2015.
- 3: Active Schedule Generation Algorithm that Makes Decisions According to Time Progress. Eguchi T., Hoshino N., Murayama T. The 59th Annual Conference of the Institute of Systems, Control and Information Engineers (Osaka), 2015.
- 4: Performance Evaluation of Novel Active Schedule Generation Algorithm. Iio S., Kishimoto T., Hoshino N., Eguchi T., Murayama T.: Annual Conference of Japan Society for Design Engineering Chugoku Branch (Hiroshima), 2015.
- 5: Development of masking piece using 3d scanner and -d printer. Murayama T., Niioka R., Umesaki S., Kawahara K., Eguchi T., Tamamoto M.: LIFE2015 (Fukuoka), 2015.
- 6: Optimization of Job Shop Scheduling with Automatic and Manual Operation. Daido T., Eguchi T., Murayama T.: 2015 Annual Congress of The Japan Society of Mechanical Engineers (Sapporo), 2015.
- 7: Lead Time Minimization using a Release Time Decision Method Based on Scheduling. Eguchi T., Murayama T.: 2015 Annual Congress of The Japan Society of Mechanical Engineers (Sapporo), 2015.
- 8: Investigation on the application of additive manufacturing to facial prostheses. Nishida M., Murayama T., Tamamoto M., Eguchi T.: 37th Meeting of the Nippon Academy of Dental Technology (Fukuoka), 2015.
- 9: Insurance of micro mechanical retention with diode laser beam machine on bond strength of zirconia and base resin. Iwaguro S., Shimoe S., Nagadori H., Murayama T., Satoda T.: 27th Meeting of the Nippon Academy of Dental Technology (Fukuoka), 2015.
- 10: Active Schedule Generation Algorithm that Makes Decisions According to Time Progress. Eguchi T., Hoshino N., Kishimoto T., Iio T., Murayama T.: 8th International Conference on Leading Edge Manufacturing in 21st Century (LEM21) (Kyoto), 2015.
- 11: Development of Device for Fitting a MaskFace. Niioka R., Murayama T., Yamawaki M., Eguchi T., Tamamoto M.: 99th Regular Meeting of Hiroshima University Dental Society (Hiroshima), 2015.

F) Special Lectures in Academic Meetings

- 1: Murayama T.: Fundamentals of Dental CAD/CAM System^{2015 Workshop on Dental Technique Practices for Trainers, Japan Society for Education of Dental Technology}(Osaka), 2015.
- 2: Murayama T.: Application of 3D-printers to dentistry and medicine^{17th Annual Conference of The Japanese Academy of Oral and Maxillofacial Rehabilitation Technology}(Hiroshima), 2015.
- 3: Murayama T.: Fundamentals of CAD/CAM^{2015 Workshop on Manufacturing in Medical Engineering, CAD/CAM/CAE/VE Practical Training}(Hiroshima), 2015.

Integrated Health Sciences

Department of Oral Biology & Engineering

(1) Staff and Students

Professor : Hiroki Nikawa

Associate Professor Tsuyoshi Taji

Lecturer : Hisako Sasahara

Assistant Professor Kazuko Kawahara

Assistant Professor Takuya Kihara, Sumiyo Mimura, Akahiro Suto

(Special Appointment)

Education and Research Support Staff : Kaori Taguchi, Yumi Hamamoto H27.11-H ,

Yoshiya Fujikawa H H27.11-H

Graduate Student : Sachiko Sawa, Yukihiro Takayama, Minako Okamura, Reiko Aimi,

Chika Umemoto, Chiaki Okada, Yumi Hamamoto, Satoshi Miyauchi,

Shun Ichikawa, Tatsumi Hashimoto, Yoshiya Fujikawa, Satoru Yaguchi

Undergraduate Student Risa Akagi, Shizuka Gion, Miyu Kiyama, Mizuki Kodama,

Natsumi Saizaki, Saori Sueyama, Konomi Hirota, Ari Fukano,

Ai Fujii, Keisuke Fujita, Yumi Ueta, Sakura Omori, Marika Kanda,

Mai Tsuyama, Riona Doi, Maki Hashimoto, Risako Hiura, Miori Fujii,

Misa Matsumura, Satoko Yamada

(2) Main Research Activities

1>8 Study on candidal biofilms and denture plaque

2>8 Study on dental caries and probiotics

3>8 Design for cationic antimicrobial peptides

4>8 Study on mechanisms of the alveolar bone resorption

5>8 Development of bone-resorption inhibitors

6>8 Study on dental implant materials

7>8 Collaborative research about allergy

8>8 Study on digital dentistry

9>8 Collaborative research about aortic aneurysm

10>8 Development of oral function devices

11>8 Analysis of food texture

(3) Research Achievements

A) Original Papers (including Case Reports)

- 1>8 Synergistic effects of FGF and Activin A on early neural differentiation of human pluripotent stem cells>8Mimura S, Suga M, Liu Y, Kinehara M, Yanagihara K, Ohnuma K, Nikawa H, Furukawa H, Kikuchi M, Vitro Cellular & Developmental Biology Animal>* 51>*769-775>*2015.

2>8 Accuracy of a three-dimensional dentition model digitized from an interocclusal record using a non-contact surface scanner>8Kihara T, Yoshimi Y, Taji T, Murayama T, Tanimoto K, Nikawa H, The European Journal of Orthodontics>* 2015 (in press)

3>8 Inhibition of RANKL-dependent cellular fusion in osteoclasts by amiloride and a NHE₃-specific monoclonal antibody>8Mine Y, Shuto T,Nikawa H, Kawai T, Ohara M, Kawahara K, Ohta K, Kukita T, Terada Y Makihira S8 Cell Biology International>39(6)>*696-709, 2015.

4>8 An Analysis of background factors influencing selection of residency facility for dental students in universities located in rural areas in Japan>8H. Kono, H. Sasahara, S. Furukawa and N. Taguchi The Open Dentistry Journal>159-167,2015.

B) Review

Research Associate Tomoaki Shintani

Technician Yuhua Tanaka(until March), Rie Miyata (from April)

(2) Main Research Activities

- H Diagnosticpathological study on head and neck lesions.
- H Study on test and treatment in metal allergy and dry mouth.
- H Molecular pathological study on development and progression of oral squamous cell carcinoma.
- H Study on molecular target therapy to oral cancer targeted with HBp17/FGFBP.
- H Study on function of cementoblast specific genes in human cementoblast.

(3) Research Achievements

A) Original Papers (including Case Reports)

1. Bisphosphonate-related osteonecrosis of the jaw successfully treated with surgical resection and its histopathological featuresA long-term follow-up report.Shintani T., Miyauchi M., Tani R., Yoshioka Y., Akagi E., Toratani S., Okamoto T.: Journal of Oral and Maxillofacial Surgery, Medicine, and Pathology. 27(2):283-286. 2015.
2. Comparison of the prognosis of bisphosphonate-related osteonecrosis of the jaw caused by oral and intravenous bisphosphonatesShintani T., Hayashido Y., Mukasa H., Akagi E., Hoshino M., Ishida Y., Hamana T., Okamoto K., Kanda T., Koizumi K., Yoshioka Y., Tani R., Toratani S., Okamoto T.: International Journal of Oral and Maxillofacial Surgery. 44(7):840-844. 2015.
3. F-spondin inhibits differentiation of clastic precursors via lipoprotein receptor-related protein 8 (LRP8): Oka H., Kitagawa M., Takata T.: Journal of Periodontology. 86(3):465-472. 2015.

4. The differential expression of mgl mRNA by *Porphyromonas gingivalis* affects the production of methylmercaptan. Ouhara K, Iwasaki Y, Kajiya M, Savitri I.J., Kitagawa M, Tokunaga N, Shintani T., Ogawa I, Hino T, Fujita T, Shiba H, Kurihara H: Oral Disease. 21:626-633. 2015.
5. High-grade epithelial-myoepithelial carcinoma of the parotid gland with mucous cell differentiation. Sentani K, Ogawa I, Uraoka N, Ikeda M, Hayashi N, Hattori T., Hattori Y, Oue N, Takata T, Yasui W: Pathology International. 65(9):490-494. 2015.
6. Peripheral ameloblastoma with histologically low-grade malignant features of the buccal mucosa: a case report with immunohistochemical study and genetic analysis. Goda H, Nakashiro K, Ogawa I, Takata T, Hamakawa H. International Journal of Clinical and Experimental Pathology. 8(2):2085-2089. 2015.
7. Dental Infection of *Porphyromonas gingivalis* Induces Preterm Birth in Mice. Miyauchi M, Furusho H, Inubushi T, Kitagawa M, Nagasaki A, Sakamoto S, Kozai K, Takata T: PLoS One. 10(8): e0137249, 2015.
8. The FGFR1 inhibitor PD173074 reduces osteoclastogenesis in gingival squamous cell carcinoma. Nguyen PT, Ajiravudh S, Miyauchi M, Ogawa I, Takata T.: Oral Surgery, Oral Medicine, Oral Pathology and Oral Radiology. 119(3):e172. 2015.
9. Distinction between cell proliferation and apoptosis signals regulated by derived neurotrophic factor in human periodontal ligament. ere5(d)-7(a)-2.7(n)5(d(l li6.9()-n)-7(o)gg)5(nivg)5(n)5.1(a)-1 e-7(a)-2.

12. A case of cystic mucoepidermoid carcinoma with *CRM1ML2* fusion gene: Obayashi M., Nagasaki A., Mizuta K., Ogawa I., Takata T.: Japanese Journal of Diagnostic Pathology. 32(2):327330, 2015.
13. Clinico-stastical Study of Prognostic Prediction using ¹⁸F-FDG PET/CT in Oral Cancer Patients: Mizuta K., Ohta K., Ono S., Shigeishi H., Nakagawa T., Fujimoto S., Uetsuki R., Obayashi M., Ogawa I., Takata T., Takechi M.: Journal of Hiroshima University Dental Society. 47(1):2015.
14. A case of a large osteoma containing maxillary mucosa in the maxillary ~~Okumura~~ T, Ono S, Nakagawa T, Miyauchi M, Ogawa I, Takachi M: Japanese Journal of Oral and Maxillofacial Surgery. 61(12):673-77, 2015.
15. A case of papillary adenoma of the lung: Maruhashi Y, ~~hiroi~~ K, Shimizu T, Oda M, Kaneko Y, Oda M, Ogawa K, Haratake D, Siroma N, Tanaka Y, Kushitani K, Takeshima Y: Journal of Hiroshima Society of Clinical Cytology. 36:62, 2015.

B) Review

1. Ameloblastoma, Ameloblastic fibroma, Keratocystic odontogenic tumor: Pathological Diagnosis, Quick reference (Hukayama M., et al. eds.) Ogawa I, Yoshida M: Pathology and Clinical Medicine. 33(Supple):50-2, 2015.
2. Powerof Saliva Ogawa I, Kitagawa M, Obayashi M, Hara K: DHstyle. 9(3):1633, 2015.

C) Publication

1. Clear cell carcinoma, NOS, The differential diagnosis of salivary gland tumors composed of clear cells: Atlas of pathologically differential diagnosis of tumors. Head and neck tumors (Morinaga S, Takata T, Nagao T. eds.): Ogawa I., Bunkodo (Tokyo), 5053, 180186, 2015.
2. Precancerous lesions of squamous cell carcinoma in oral and oropharyngeal regions: Atlas of pathologically differential diagnosis of tumors. Head and neck tumors (Morinaga S, Takata T, Nagao T. eds.). Ogawa I., Bunkodo (Tokyo), 68-45, 2015.
3. Salivary lesions, Osteosarcoma: JSCC Atrial and Guidelines for Cytopathological Diagnosis.
- 5.Digestive system (The Japanese Society of Clinical Cytology, ed.): Ogawa I., Kaster Japan (Tokyo), 49, 50, 53, 54, 67, 68, 73. 2015..

D) Other Publications

E) Presentation at Scientific Meeting

1. Eldecalcitol (ED) D Q \$ Q D O Rdihydroxyvitamin D3 as a Potential Anticancer Agent for Oral Squamous Cell Carcinomas (OSCC): Shintani Rōsli S.N.Z, Takatsu F, Toratani S, Choon Y.F., Usui E, Okamoto T: The 18th Workshop on Vitamin D (Delft, The Netherland) 2015.
2. Comparative investigation of transcriptional regulatory mechanism of bone sialoprotein in osteoblast and cementoblast-like cells Noda K, Yamazaki M, Iwai Y., Matsui S, Kato A, Takai H., Nakayama Y, Kitagawa M, Takata T, Ogata Y. The 63rd Annual Meeting of Japanese Association for Dental Research (Hakata), 2015.
3. Effects of inflammatory cytokines on human FSP gene expression Iwai Y., Noda K, Yamazaki M., Matsui S, Kato A, Takai H, Nakayama Y, Kitagawa M, Takata T, Ogata Y. The 63rd Annual Meeting of Japanese Association for Dental Research (Hakata), 2015.
4. Growth inhibitory effects in vivo of Eldecalcitol (ED) D Q D Q D O R J₂B₈ on oral 2+ squamous cell carcinomas through downregulation of Heparin-Binding Protein 17/Fibroblast Growth Factor-Binding Protein 1 Rosli S.N.Z, Shintani T, Takatsu F, Choon Y.F, Usui E, Hayashido Y, Toratani S Zain R.B, Okamoto T: BMB2015 Biochemistry and Molecular Biology (Kobe), 2015.
5. The evaluation of the oral environment and the taste function in patients treated with Vanti agents: Shintani,TYamasaki N, Iwata T, Saitou S

- The 26th Annual Meeting of Japanese Society of Oral Pathology (Sapporo), 2015.
10. Ameloblastin induces tumor suppressive phenotype and enhances resistance to doxorubicin in osteosarcoma Ando T., Umehara H., Miyauchi M., Ogawa I., Kudo Y., Takata T.: The 26th Annual Meeting of Japanese Society of Oral Pathology (Sapporo), 2015.
 11. Characterization of Ameloblastoma cells on Human Ameloblastoma Cell Line Mikami T., Bolognalmolina R., Kitagawa M., Takata T., Takeda Y.: The 26th Annual Meeting of Japanese Society of Oral Pathology (Sapporo), 2015.
 12. Expression of Wilms' Tumor 1 (WT1) in Ameloblastoma Mikami T., Bolognalmolina R., Mikami T., Kitagawa M., Takata T., Takeda Y.: The 26th Annual Meeting of Japanese Society of Oral Pathology (Sapporo), 2015.
 13. Significance of fusion gene analysis for the differential diagnosis of mucoepidermoid carcinoma Nagasaki A., Ogawa I., Ohuchi T., Nagao T., Takata T.: The 60th Meeting of Japanese Salivary Gland Society (Tokyo), 2015.
 14. The study of Antitumor Activity using Eldecalcitol (ED-3D) in Oral Squamous Cell Carcinoma Takatsu F., Shintani T., Rosli S.N.Z., Toratani S., Usui E., Okamoto T.: The 69th Annual Meeting of The Japanese Stomatological Society (Osaka), 2015.
 15. The study of Antitumor Activity using Eldecalcitol (ED-3D), an analog of Hydroxyvitamin D3 in Oral Squamous Cell Carcinoma Takatsu F., Shintani T., Rosli S.N.Z., Toratani S., Usui E., Okamoto T.: The 52nd Annual Meeting of Japan tissue culture Society For Dental Research (Tokushima), 2015.
 16. Dental treatment support for HIV-infected inpatients in Hiroshima University Hospital Kada M., Matsui K., Iwata T., Shintani T., Ogawa Y., Ikeda Y., Kinoshita K., Takata N., Saitou S., Yamasaki N., Fujii T., Shiba H.: The 29th Annual Meeting of the Japanese Society for AIDS Research (Tokyo), 2015.
 17. Parotid tumor (Epithelial-myoepithelial carcinoma with sebaceous differentiation) Ogawa I., Nakano R., Sakaida N., Takata T.: The 117th Academic Meeting of Chugoku-Shikoku Branch of the Japanese Society of Pathology (Okayama), 2015.
 18. Multiple warty lesions of oral mucosa Ogawa I., Obayashi M., Kanda T., Toratani S., Okamoto T., Takata T.: The 26th Annual Meeting of Japanese Society of Oral Pathology (Sapporo), 2015.
 19. A case of the mandibular tumor (Ameloblastoma with ectomesenchymal stroma) Yada N., Miyamoto I., Kaneko T., Yoshioka I., Ogawa I., Takata T., Matsuo K.: The 26th Annual Meeting of Japanese Society of Oral Pathology (Sapporo), 2015.
 20. Mandibular lesion (Cherubism): Tsuji H., Ando T., Kanda T., Harada S., Ogawa I., Takata T.: The 65th Meeting of Hiroshima Pathological Conference (Hiroshima), 2015.
 21. Tumor of mouth floor (Squamous cell carcinoma, poorly differentiated, clear cell dominant) Furusho H., Nagasaki A., Miyauchi M., Ogawa I., Tani R., Suei Y., Takata T.: The 64th Meeting of

- Hiroshima Pathological Conference (Hiroshima), 2015.
22. A case of histiocystic necrotizing lymphadenitis (Kikuchi's Disease) after operation of neck dissection of lymph node metastasis of mucoepidermoid carcinoma of the palate Higaki M., Kanda T., Yasui T., Ando T., Tani R., Toratani S., Okamoto T.: The 25th Annual meeting of the Japanese Society of Oral Medicine (Saitama) 2015.
 23. A case of Cowden syndrome diagnosed with multiple warty lesions of oral mucosa Hayashi S., Kanda T., Higaki M., Obayashi H., Nakatao H., Hamada M., Akagi E., Yamasaki S., Ando T., Ogawa I., Toratani S., Okamoto T.: The 25th Annual meeting of the Japanese Society of Oral Medicine (Saitama) 2015.
 24. A recurrent case of ameloblastoma 20 years after enucleation Kanda T., Nakatao H., Obayashi H., Yasui T., Ando T., Tani R., Ogawa I., Hayashido Y., Toratani S., Okamoto T.: The 63rd Meeting of Chugoku Shikoku Branch of Japanese Stomatological Society (Okayama), 2015.
 25. A case of central mucoepidermoid carcinoma of the mandible Kenumura N., Suematsu M., Hayashido Y., Ando T., Ogawa I., Okamoto T.: The 63rd Meeting of Chugoku Shikoku Branch of Japanese Stomatological Society (Okayama), 2015.

F) Special lectures in academic meetings

1. New entities of salivary gland neoplasm Ogawa I.: Oral Disease Update Meeting 2015 (Kuala Lumpur), 2015.
2. Sclerosing polycystic adenosis and ectomesenchymal chondromyxoid tumor Ogawa I.: Oro-Maxillofacial Pathology Slide Seminar 2015 (Kuala Lumpur), 2015.
3. The current classification, guidelines and controversial Issue. Symposium: Standardization of the diagnosis of superficial cancer, especially Tis cancer, of oral cavity: Ogawa I.: The 10th Annual Meeting of Japan Society for Oral Tumors (Nara), 2015.
4. The pathological diagnostic problems of the epithelial dysplasia of oral mucous epithelium. Symposium: Reconsideration about epithelial dysplasia of oral mucous epithelium: Ogawa I.: The 56th Annual Meeting of the Japanese Society of Clinical Cytology (Matsue), 2015.
5. Oral Pathology. IAP Slide Seminar: Ogawa I., Takata T.: Pathological Education Seminar 2015 (Tokyo), 2015.

(4) Status of Receiving Grants-in-Aid for Scientific Research, etc.

- >/: Grants-in-Aid for Scientific Research (C): Kitagawa M.: Examination about inhibition of alveolar bone resorption by Spondin, 25462854, 1,000,000 yen.
- >0: Grants-in-Aid for Scientific Research (C): Shintani T.: The development of the molecular target

diagnosis and therapy HBp17/FGFBP protein to oral cancer. 254,630,000 yen

- >1: Grants-in-Aid for Scientific Research (Ogawa I.: Analysis of pathological and biomolecular factors related to the biological behaviors of salivary gland tumors. 254,628,670,000 yen.

(5) Academic Awards, etc.

(6) Patents

Central Clinical Divisions Dental Technicians Section

(1) Staff and Students

Director of Dental Technicians Section >8 Hiroki Nikawa (Prof.)
 Assistant Chief Dental Technician >8 Ryoji Kato
 Supervisor Dental Technician >8 Eisaku Habu, Yoshihiro Otani, Meiji Yamamoto,
 Dental Technician >8 Hirotaka Okura, Syogo Iwaguro, Masanobu Yamamoto

(2) Main Research Activities

- >/>8 Management of the patient information by the use of implanted devices in the denture
- >0>8 Radioprotective prostheses for radiation therapy
- >1>8 Clinical analysis of superstructure of implant
- >2>8 Esthetic dentistry
- >3>8 Accuracy of castings
- >4>8 Information processing in the dental laboratory
- >5>8 Study on dental composite materials for aesthetic

(3) Research Achievements

A) Original Papers (including Case Reports)

- 5>8 Reference model for rapid diagnosis and treatment in the aspiration and accidental swallowing of dental prostheses. Takeuchi M, Iwaguro S, Kato R, Hiasa K, Kubo T, Abekura H, Abe T, Suga K. The Journal of Hiroshima University Dental Society 47(2):159-162. 2015.
- 6>8 Accuracy of a three-dimensional dentition model digitized from an interocclusal record using a non-contact surface scanner. Kihara T, Yoshimi Y, Taji T, Murayama T, Tanimoto K, Nikawa H. The European Journal of Orthodontics 2015 (in press)

B) Review

C) Publications

D) Other Publications

E) Presentation at Scientific Meeting

- >/>8 Influence of micro mechanical retention with diode laser beam machine on bond strength of zirconia and base resin. Iwaguro S, Shimoe S, Nagadori Y, Murayama T, Satoh T. The 37th meeting of the Nippon Academy of Dental Technology (Fukuoka), 2015.

(4) Status of Receiving Grants, Aid for Scientific Research, etc.

2015

(5) Academic Awards, etc.

2015

Central Clinical Divisions Dental Hygiene Section

(1) Staff and Students

Director of Dental Hygiene Section: Hidemi Kurihara

Chief Dental Hygienist: 8

Japanese Society of Oral Care (Shimonoseki), 2015.

2: Custommade tooth brushing instruction using visual support for students in special support school
Atsuko Wakita, Yuki Oda, Taro Kojima, Miyuki Nakaoka, Tomoaki Fujita, Yuji Ueda, Mitsugi Okada:
Department of Clinical Support Dental Hygiene Section, Hiroshima University Hospital, Hiroshima,
JapanThe 32st Japanese Society for Disability and Oral Health(GOYA), 2015.

3: Study on the effect of custommade tooth brushing instruction using picture ~~case~~Reports in
Hiroshima Special Support Education School: Yuji Ueda, Takashi Arima, Yoshinori Hada, Yumi Hirai,
Tomoaki Fujita, Taizou Komatsu, Kazuki Noumi, Atsuko Wakita, Yuki Oda, Taro Kojima, Mitsugi
Okada: Hiroshima City Dental Association, Hiroshima Prefecture Dental Association Hiroshima
University Dental Society 2015.

4: Relaxation of symptoms of delusional disorders and somatoform disorders accompanied with the
improvement of oral hygiene: a case reportYano K, Doi M, Yoshino A, Kanda T, Nagayasu S, Nakaoka
M, Irifune M: The 10th Annual Meeting of the Japan Dental Hygienists Association(Sapporo), 2015.

5: Survey on shade taking of dental residentsComparison between visual color matching and dantel
spectrophotometerYano K,Mineoka A: The 26 annuall meeting of Japan Academy of Esthetic
Dentistry(Tokyo), 2015.

6: Effort by Dental hygienists in dental support for HIV positive patients in Hiroshima University
Hospital:Okada M, Matsui K, Iwata T, Shintani T, Ogawa Y, Ikeda Y, Kinoshita K, Takada N, Saito S,
Yamasaki N, Fujii T, Shiba H: The 29th Annual meeting of the Japanese Society for AIDS
research(Tokyo), 2015.

7: Activities of Oral Care Support Team in Hiroshima University Hospital: Kotomi Tetsumori: Hiroshima
Conference(Hiroshima), 2015.

8: A case of effectiveness of repetitive toothbrushing instruction by using picture cards in a patient with
intellectual disabilityAyumi Nakai Atsuko Wakita, Yuki Oda, Miyuki Nakaoka, Mitsugi Okada: The 10
Annual Meeting of The Japan Society for Dental Hygiene(Hokkaido), 2015.

9: Usability of AUDIT System of Hiroshima Safety Dental service Support network to improve the
prevention step for nosocomial infection in the dental clinicYoshiyuki Iwata, Noriyoshi Mizuno, Miyuki
Nakaoka, Takayoshi Nagahara, Yumi Irie, Koji Ohta, Hideki Shiba, Akihiro Sawa, Kazuhiro Tsuga and

Hidemi Kurihara The 30th Annual meeting of the Japanese Society for Infection Prevention and Control
(Kobe), 2015

F) Lecture

1: Self-care for improving the periodontitisyukiko nagatani: Hiroshimaminami and Aki sectionth 8 diabetes educator seminar(Hiroshima), 2015.

(4) Status of Receiving Grants Aid for Scientific Research, etc.

(5) Academic Awards, etc.

(6) Patents

(7) Work shop

1: Towards the establishment of education and training of infection prevention measures:Miyuki Nakaokab:The 30st Annual Meeting of Japanese Society for Infection Prevention and Control(Hyogo),2015
