10

4	28	29			The Research Center for Drug Development and Biomarker Discovery	
1	25	29			Chirality Research Center	
1	25	29			Core of Research for Energetic Universe	
1	25	29	- ()		The Research Center for Animal Science	
3	27	28		N	Research Center for Nitrogen Recycling Energy Carrier	
3	27	28			Research Center for Innovative Diagnosis and Treatment of Depression	
2	26	26		HISENS	HISENS Research Center	
1	25	26			Research Center for the Mathematics on Chromatin Live Dynamics	
1	25	26			Research Center for Genome Editing	
1	25	26			Liver Research Project Center in Hiroshima	

15

5	29	30			Developing science and technology for diversity and inclusion	
5	29	30			Consolidated research for biogenic nanomaterials	
5	29	30			MBR Center	
4	28	29			Educational Vision Research Institute	
4	28	29			Hiroshima Drug-Delivery Research Center Using Photoirradiation	
4	28	29			Hiroshima Institute of Plate ConvErgence Region Research	
4	28	29	Revolution	Green	The Research Core for Plant Science Innovation	
3	27	28			Hiroshima Institute of Health Economics Research	
3	27	28			Advanced Core for Energetics	
3	27	28			Center for Functional Nano Oxide	
3	27	28			Center for Emergent Condensed-Matter Physics in Hiroshima University	
2	26	26			Integrated Research Center for Smart Biosensing	
2	26	26	-		The Research Center for Japanese Foods	
1	25	26			Center for Regenerative Therapy for Immediately Responsive to Radiation Emergency Medicine	
1	25	26			Hiroshima Research Center for Healthy Aging	

2	26	26		Hiroshima Active Peacebuilding Research Initiative		
2	26	26		Hiroshima Novel Manufacturing Research Center		
2	26	26		Interdisciplinary Research Center for Instinctive Behavioral Science		
2	26	26		Center of Research for Environmentally Friendly Smart Materials
