

Announcement of Faculty Position
Graduate School of Biomedical & Health Sciences, Hiroshima University, Japan

September 27, 2018

Hiroshima University has been selected as one of the 13 Type A (top type) universities under the fiscal 2014 program to support the creation of super global universities. Hiroshima University aims to become one of the global top 100 universities by continuously producing global talents and creating knowledge while promoting university reforms centering on the twin pillars of educational and research capabilities.

Graduate School of Biomedical & Health Sciences, Hiroshima University invites applications for one professor position.

In education, we are seeking candidates who have a wide range of academic background in Pharmaceutical Core Curriculum and its cutting-edge trend, and be able to teach Biological pharmacology.

In research, we are seeking candidates who can take a core role in the Drug Discovery & Biomarker Center, and can positively collaborate with other domestic fields and overseas researchers to disseminate research results internationally.

1. Affiliation (Appointment):

Academy of Hiroshima University (Graduate School of Biomedical & Health Sciences)

2. Position and the Number of Opening: Professor, one (1)

3. Date of Appointment: April 1, 2019

4. Field of Specialization: Biological pharmacology

5. Teaching Responsibilities

- Undergraduate level (general education courses): Introductory Seminar for First-Year Students, etc.
- Undergraduate level (discipline specific courses): Drug Discovery Biochemistry, Target Molecule Biochemistry, Experiments of Biological Chemistry, Special laboratory Works in Pharmaceutical Sciences I·II, Clerkship in Clinical Pharmacy I·II·III, etc.
- Graduate level (master's programs): Advanced Drug Discovery Target Molecular Science, Practice Exercises of Drug Discovery Target Molecular Science, Special Practice of Drug Discovery Target Molecular Science, etc.
- Graduate level (doctoral programs): Special Exercise of Drug Discovery Target Molecular Science, Special Experiment of Drug Discovery Target Molecular Science, etc.

* For the following subjects, please include the range of classes in the current physiochemical laboratory.

(Undergraduate level (discipline specific courses): Drug Discovery Biochemistry, Target Molecule Biochemistry, Experiments of Biological Chemistry)

* In addition to the courses listed above, he or she may be asked to teach other general education courses and/or discipline specific courses in other departments and graduate schools.

6. Application Requirements

Applicants must satisfy all of the following qualification.

- (1) Holding a doctoral degree (or equivalent degree)
