

Announcement of Faculty Position
Graduate School of Biomedical & Health Sciences, Hiroshima University, Japan

November 6, 2018

Hiroshima University has been selected as one of the 13 Type A (top type) universities under the fiscal 2014 program to support the creation of super global universities. Hiroshima University aims to become one of the global top 100 universities by continuously fostering global leaders and creating knowledge while promoting university reforms centering on the twin pillars of educational and research capabilities.

Graduate School of Biomedical & Health Sciences, Hiroshima University seeks applicants for 1 professor position. Now, we announce the recruitment is extended.

In education, we seek a person as Professor who can be a leading person in the dental hygienist education in Program of Oral Science, while having sufficient knowledge to train students in the School of Dentistry (Programs of Dentistry and Oral Engineering) and the Graduate School of Biomedical & Health Sciences to be advanced dental professionals or researchers.

Since the Graduate School will be reorganized from April 2019, we plan to conduct oral science education in collaboration with the field of health science.

Our School of Dentistry launched an International Dental Course in 2011 and is implementing student education to improve their global competency. In the school Professors are required to conduct lectures in accordance with "Dual Linguistic Education system" using both English and Japanese.

In research, we seek a person as Professor who can direct studies in the field of oral science and related areas, and who can actively explore new fields such as disaster oral care and oral health promotion. It is expected that this person shall be able to conduct research projects in cooperation with other research facilities and hospitals within and outside Hiroshima University.

In clinical, we seek a person as Professor who can lead medical care and clinical education including oral healthcare related medicine and dental care at oral health department etc at Hiroshima University hospital.

We seek a person in the wide range of abovementioned fields, having enthusiasm for educational and research activities and can achieve excellent research results. The person shall understand the principles and visions of our schools, hospital and university and have belief in and passion for our school and university administration.

We would appreciate if you send this announcement to relevant audiences. Also, we would be grateful if you could recommend someone who meets our requirements or encourage competent candidates to apply for this position.
