March 7, 2019

Hiroshima University has been selected as one of the 13 Type A (top type) universities under the fiscal 2014 program to support the creation of super global universities. Hiroshima University aims to become one of the global top 100 universities by continuously fostering global leaders and creating knowledge while promoting university reforms centering on the twin pillars of educational and research capabilities. Graduate School of Biomedical & Health Sciences, Hiroshima University seeks applicants for 1 associate professor or assistant professor position.

In education, we seek a person as associate or assistant professor who can instruct graduate and undergraduate students in anatomy and related subjects, while having sufficient knowledge to train students as advanced dental professionals or researchers in the School of Dentistry (Program of Dentistry and Program of Oral Health Science) and the Graduate School of Biomedical & Health Sciences.

Our School of Dentistry launched an International Dental Course in 2011 and is implementing student education to improve global student competency. In the school the associate professor or assistant professor must conduct lectures as "Dual Linguistic Education" using English and Japanese.

In research, we seek a person as associate or assistant professor who can conduct research in the field of dental anatomy and related subjects, while having sufficient knowledge to train students as advanced dental professionals or researchers in the School of Dentistry (Program of Dentistry and Program of Oral Health Science) and the Graduate School of Biomedical & Health Sciences.

Labor Contract Act, is to be 'for over ten (10) years'.
