

**Announcement of Faculty Position**  
**Graduate School of Biomedical and Health Sciences, Hiroshima University, Japan**

April , 2019

Hiroshima University has been selected as one of the 13 Type A (top type) universities under the fiscal 201 program to support the creation of super global universities. Hiroshima University aims to become one of the global top 100 universities by continuously fostering global leadership and creating knowledge while promoting university reforms centering on the twin pillars of education and research capabilities.

The Graduate School of Biomedical and Health Sciences, Hiroshima University seeks applications for 1 adjunct assistant professor position to strengthen our functions with regard to international dental education and research. The candidate is desired to have skills and experience to work on education and research in the field of pathology and oral pathology. Now, we announce the recruitment is extended.

In education, we seek a person as assistant professor who can instruct graduate and undergraduate students in general pathology, oral pathology and related subjects, while having sufficient knowledge to train students as advanced dental professionals or researchers in the School of Dentistry (Program of Dentistry and Program of Oral Health Science) and the Graduate School of Biomedical and Health Sciences. Our School of Dentistry launched an International Dental Course in 2011 and is implementing student education to improve global student competency. In the school the assistant professor must conduct lectures as "Dual Linguistic Education" using English and Japanese.

In research, we seek a person who can conduct biology-based scientific research along with medical and dental collaborative research on "oral systemic disease connection" and "development of novel strategy to control bone destructive disease". We will promote project research and collaborative research not only with other departments in Hiroshima University, but also with domestic and overseas research institutes. In addition, we seek a person to positively work on the diagnosis and research of oral diseases.

We seek a person in the abovementioned fields who has enthusiasm for educational and clinical activities and can achieve excellent research results. The person shall understand the principles and visions of our schools, hospital and university and have belief in and passion for our schools and university administration.

We would appreciate if you send this announcement to relevant audiences. Also, we would be grateful if you could recommend someone who meets our requirements or encourage competent candidates to apply for this position.
