

Guideline for the Writing Advisor Fellowship 2019 autumn

Hiroshima University (HU) is one of the largest and most comprehensive research universities in Japan. Based on its founding principle, "a single unified university, free and pursuing peace," we are committed to promoting research that benefits the future of humankind while fostering excellent human resources. HU comprises of 12 faculties, 11 graduate schools, and a university hospital. As of May, 2018, HU has more than 1,700 faculty and 1,600 staff members, and more than 15,000 students. Amid increasing globalization, we aim to enhance international competitiveness in the field of academic research.

HU has been selected to be one of the Japanese institutions to receive support from the Ministry of Education, Culture, Sports Science and Technology (MEXT) as part of The Program for Promoting the Enhancement of Research Universities. Against this backdrop, HU Writing Center started to expand its services in November 2013 with a mission to foster the university's education and research activities by supporting everyone from undergraduate to graduate students and faculty members in improving their academic writing skills.

HU aspires to enhance its international competitiveness and reputation in global academic and educational fields by publishing more of its research results in English language journals and releasing research outcomes to international audiences. To make this possible, we created a paid fellowship program in 2016 which is ideal for someone who wishes to gain professional experience working with non-native English writers and speakers, focusing on academic writing at the tertiary level and above. The Fellow will work full-time at HU, located at two campuses in Higashi-Hiroshima and Kasumi.

Writing Advisor Fellow (Full time)

The Writing Advisor Fellow will assist the Writing Center's faculty members in helping Hiroshima University (HU) researchers write papers in English. The Fellow will provide consultations on academic writing, such as drafts for academic journals and proposals, or abstracts for international conferences. The Fellow will also facilitate writing groups to encourage peer feedback and to support researchers during the writing process. Together with the Writing Center's faculty members and independently, the Fellow will plan, organize, and lead seminars and workshops related to academic writing and presentation skills. Other responsibilities include giving mid-term and final report presentations and to compile written reports based on the presentations.
