The Division of Advanced Science and Engineering of the Graduate School of Advanced Science and Engineering seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

- An ambition for the promotion of advanced and high-level academic and inter-disciplinary research;

- The will to be engaged in professional occupations such as researchers and engineers in areas related to natural science, engineering, and information science;

- A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to natural science, engineering, and information science as well as a wide range of intelligence; and

- Common sense and ethics required for a member of society.

The Mathematics Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

- A strong questing mind for the mathematical truth and an ambition to make a progress in specialized and/or inter-disciplinary research of mathematics;

- The will to be engaged in professional occupations such as researchers, educators, and engineers in mathematics areas;

- A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to mathematics as well as a wide range of intelligence; and

- Common sense and ethics required for a member of society.

The Physics Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

- The will to obtain state-of-the-art knowledge in areas of physics based on the point of view of researchers on a top international level;

- The will to obtain fundamental knowledge in contemporary physics to be engaged in researching jobs, educational jobs, and/or advanced engineering jobs related to areas of physics;

- A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to physics as well as a wide range of intelligence; and

- Common sense and ethics required for a member of society.

The Earth and Planetary Systems Science Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

- An ambition for acquiring advanced expertise and research techniques related to the earth and planetary systems science;

- The will to be engaged in professional occupations such as researchers, educators, and engineers in areas of the earth and planetary systems science;

- A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to mathematics as well as a wide range of intelligence, in addition to a strong curiosity

The will to be engaged in professional occupations such as researchers and engineers in mechanical engineering areas;

A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to the mechanical engineering as well as a wide range of intelligence; and

Common sense and ethics required for a member of society.

The Transportation and Environmental Systems Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

An ambition for academic research and inter-disciplinary activities;

The will to be engaged in professional occupations such as researchers and engineers in areas of the transportation system engineering or the environmental system engineering;

A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to the transportation system engineering and the environmental system engineering as well as a wide range of intelligence; and

Common sense and ethics required for a member of society.

The Architecture Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

An ambition for academic research and inter-disciplinary activities;

The will to be engaged in professional occupations such as researchers and engineers in architecture areas;

A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to architecture as well as a wide range of intelligence; and

Common sense and ethics required for a member of society.

The Civil and Environmental Engineering Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

An ambition for academic research and inter-disciplinary activities;

The will to work as a high-level engineer or researcher in areas of civil and environmental engineering including disaster prevention and mitigation engineering;

A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to the civil and environmental engineering as well as a wide range of intelligence; and

Common sense and ethics required for a member of society.

The Informatics and Data Science Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

An ambition for academic research and inter-disciplinary activities;

The will to work as a high-level engineer or researcher in areas of the informatics and data science;

A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to the informatics and data science as well as a wide range of intelligence; and

Common sense and ethics required for a member of society.

The Smart Innovation Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

An ambition for academic research and inter-disciplinary activities;

The will to be engaged in professional occupations such as researchers and engineers in areas related to the smart material development, the smart measurement and control, and their fusion technologies;

A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to the smart material development, the smart measurement and control, and their fusion technologies as well as a wide range of intelligence; and

Common sense and ethics required for a member of society.

The Quantum Matter Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

The will to be engaged in professional occupations such as researchers and engineers in area of the basic materials science, condensed material physics, material science and engineering, and electronic engineering;

An ambition for acquiring knowledge and skills related to areas mentioned above regardless of the experience and background before entering the university;

A wish to build up new businesses as well as exploring scientific facts and applying scientific findings from the academic point of view;

A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to the basic materials science, condensed material physics, material science and engineering, and electronic engineering as well as a wide range of intelligence; and

Common sense and ethics required for a member of society.

The Transdisciplinary Science and Engineering Program seeks students who have the following aspirations and motivation and have the basic academic abilities necessary for it:

An ambition for the promotion of advanced and high-level academic and inter-disciplinary research;

Interest in a new academic area in addition to both of the nature-oriented and human-oriented thoughts;

A zeal for establishing the "science for sustainable development" from a multifaceted perspective and for solving regional and international issues by acquiring knowledge and study skills for the academic areas related to natural science, engineering, and interdisciplinary areas such as the information science and the international cooperation studies as well as a wide range of intelligence; and

Common sense and ethics required for a member of society.

The Division of Advanced Science and Engineering of the Graduate School of Advanced Science and Engineering in Hiroshima University will accept applicants in Special Selection for International Students [For Students Living Outside Japan] for October 2021 admission to the Master's Course as indicated below.

Division	Program	Capacity	Admission capacity	Contact Submission address for application documents
Division of Advanced Science and Engineering	Mathematics Program	449	Several students	Support Office for the fields of Science 739-8526 1-3-1 Kagamiyama, Higashi-Hiroshima Tel: 082-424-7309, 4468

Those who are of a non-Japanese nationality, live outside Japan at the time of application, and meet or are expected to meet the application eligibility specified by the desired Program by the date of enrollment.

Mathematics Program / Physics Program / Earth and Planetary Systems Science Program / Basic Chemistry Program (hereinafter referred to as “Science Programs”) / Transdisciplinary Science and Engineering Program (Environmental and Natural Sciences)

Those who meet or are expected to meet either of the following criteria (1) to (11) by the date of enrollment.

Applied Chemistry Program / Chemical Engineering Program / Electrical, Systems, and Control Engineering Program / Mechanical Engineering Program / Transportation and Environmental Systems Program / Architecture Program / Civil and Environmental Engineering Program / Informatics and Data Science Program / Smart Innovation Program (hereinafter referred to as “Engineering Programs & Informatics and Data Science Program”) / Quantum Matter Program

Those who meet or are expected to meet either (3) (6) or (10) of the following criteria by the date of enrollment.

- (1) A person who graduated from a university or college.
- (2) A person who earned a bachelor's degree from the National Institution for Academic Degrees and Quality Enhancement of Higher Education according to the provision of Section 7 of Article 104 of School Education Act (Act No. 26 of 1947. Hereinafter referred to as “the Act”).
- (3) A person who earned a bachelor's degree after passing through a 16-year school education course in a country other than Japan.
- (4) A person who studied the class subjects provided by a foreign school as a correspondence course in Japan and, as a result, completed the 16-year school education course in the concerned foreign country.
- (5) A person who completed an education course in Japan provided by a foreign education institute which is established as an undergraduate course (limited to that for which the person who completed the course is regarded as having completed the 16-year school education course in the concerned foreign country) within the school education system in the concerned foreign country and is separately specified by the Minister of Education, Culture, Sports, Science and Technology (MEXT).
- (6) A person who earned a degree equivalent to a bachelor's degree after completing a course of which the term is 3 years or longer (including a person who studied the class subjects provided by a foreign school as a correspondence course in Japan and completed the concerned education course; and a person who completed the education course in Japan provided by a foreign education institute which is established within the school education system in the concerned foreign country and is specified in the item (5) above) in a university or the other school in a foreign country, which has been evaluated for the comprehensive conditions of the education and research activities by a person who is authorized by the government or the concerned institutions of the concerned foreign country or has been separately specified as equivalent by MEXT.
- (7) A person who completed, after the date specified by MEXT, the specialized course of a specialized training college (limited to that meets the criteria specified by MEXT, such as its term is 4 years or longer) which is separately specified by MEXT.
- (8) A person who has been specified by MEXT (as defined in the Notification of Ministry of Education, No. 5 of 1953: e.g. a person who graduated from a university established under the University Ordinance in 1886 or a college established under a law stipulated for the concerned government agency regarding its establishment such as the act for establishment, order for organization, and individual law for the Incorporated Administrative Agencies).
- (9) A person who entered a graduate school according to Section 2 of Article 102 of the Act and has been approved by the Graduate School as having academic capabilities required for the education in the Graduate School.
- (10) A person who has been approved by the Graduate School as having academic abilities equivalent or superior to those of bachelor degree holders according to the result of the examination that was separately conducted, and is 22 years or older.

(11) A person who has been enrolled in a university for a period of three years or longer (including those who have been certified by MEXT as equivalent to such) and has obtained credits in the subjects designated by the Graduate School with excellent academic performance.

(Caution 1) The Applicant who is expected to meet either of the criteria (1) to (8) above must obtain the concerned application eligibility by September 30, 2021.

(Caution 2) The applicant who falls under either (9) (10) or (11) of the criteria above must undergo a preliminary evaluation of the application eligibility (refer to "3. Preliminary Examination").

Those who apply for Engineering Programs & Informatics and Data Science Program or Quantum Matter Program must meet either of the following requirements.

Able to submit a score certificate of the English-language proficiency examination which was held in the period from May 2018 to the time of application such as TOEIC® (score 600 or above), TOEFL®-PBT (score 505 or above), TOEFL®-ITP (score 505 or above), TOEFL®-iBT (score 63 or above), IELTS Academic (score 5.5 or above) or Cambridge English Qualifications (score 160 or above) at the time of application; or

Able to submit a certificate indicating that the applicant has received a higher education in English.

#### (1) Preliminary Evaluation

The applicant who falls under either (9) (10) or (11) of the criteria above must follow the procedures below and undergo a preliminary evaluation of the application eligibility.

##### a) Application Period

Monday, April 12, 2021 - 17:00, Friday, April 23, 2021

(Indicate the phrase "Application Form for Preliminary Evaluation is enclosed." in red on the front surface of the envelope.)

##### b) Application Documents

Submit all the documents listed below at once during the application period to the respective Support Offices indicated in the section " Programs and Number of Students to be Admitted" (page 7).

Download the specified forms (a and b) from the website of the Graduate School.

	Document Name	Note
a	Application Form for Preliminary Evaluation	Use the specified form to prepare.
b	Record of Preliminary Evaluation	Use the specified form to prepare.
c	Statement of motivation for entering the Graduate School and research plan for the Master's Program	Use A4-sized sheets; free format

(2) The evaluation results will be notified to the applicants by e-mail or by post by Friday, May 7, 2021.

(3) The applicants who have successfully passed a preliminary evaluation need not submit "Research plan" listed in the section "V Application Documents" (page 12, 14, 16, 17 ).

Apply via internet and submit the application documents.

Input the information regarding the application on the website.

Pay the entrance examination fee of 30,000 yen.

Mail the application documents.

(Caution)

The application via internet will not be completed when only the input of the information on the website and the payment of the entrance examination fee are done. It is required to mail the application documents to be received before the deadline. The application will not be accepted when the applicant only sends the application documents.

The applicant must complete all the processes , , and described above in the "1. Application Method" during the application period.

--

◆ Inquiry regarding the system

Service Hours: 10:00 - 18:00 (closed on Saturday, Sunday, and national holidays from April to the end of July)
--

Tel: +81-50-3756-5124
-----------------------

Service Hours: 10:00 - 18:00
------------------------------

Tel: +81-50-3786-5524
-----------------------

About unclear points regarding the entrance examination, ask the respective Support Offices indicated in the section " Programs and Number of Students to be Admitted" (page 7).

Business Hours: 8:30 - 17:00 (closed on Saturday, Sunday, and national holidays)

Complete the following 8 steps during the application period.

Access the following web page:

Account registration for UCARO (free for charge) is required for application.

Follow the instruction shown on the screen to input your name, address, etc.

Follow the instruction shown on the screen to upload the digital data of your photograph (File format: JPEG). It is not allowed to submit the photograph via mail.

Select either of the following payment method on the "Input Payment Information" screen:

1. Credit card: VISA, MasterCard, JCB, AMERICAN EXPRESS, Diners Club
2. ATM of a financial institution [Pay-easy]
3. Net banking

(Caution)

The applicant has to pay the charge for use of the Internet Application System (650 yen per application) in addition to the entrance examination fee.

MEXT Scholarship recipients are exempted from the entrance examination fee.

The entrance examination fee once paid will not be returned for any reason after the application is accepted.

In either (1) or (2) of the following cases, the entrance examination fee once paid will be returned after deducting the transfer fee. We will mail the form of the "Refund Claim" for refund of the examination fee. Fill in the required information such as the "application number," "name in kana letters," "name," "phone number," "address," "payee account information," and "reason of refund claim," imprint your seal on the form, and mail the form to the respective Support Office indicated in the section " Programs and Number of Students to be Admitted" (Page 7) before Monday, February 28, 2022.

The charge for use of the Internet Application System will not be repaid for any case.

(1) The applicant does not submit the application documents or the application documents are not received.

(2) The payment of the entrance examination fee is duplicated.

Write down \_\_\_\_\_ that is shown on the screen.

For the submission address, refer to the section " Programs and Number of Students to be Admitted" (page 7).

Indicate the phrase "Application documents for Program of Graduate School of Advanced Science and Engineering are enclosed." in red on the front surface of the envelope.

Note that the application documents vary for each Program.  
It is required to attach the English or Japanese translation to the application documents written in other language.

Mathematics Physics Earth and Planetary Systems Science Basic Chemistry

After making the application via internet, submit all the documents listed below at once during the application period to the relevant Support Office indicated in the section “ Programs and Number of Students to be Admitted” (page 7). Download the specified forms (3 and 4) from the website of the Graduate School.

No	Document Name	Note				
1	Academic transcript	Issued by the president of the university or the dean of the faculty from which the applicant has graduated.				
2	Certificate of graduation or certificate of expected graduation	<p>Issued by the president of the university or the dean of the faculty from which the applicant has graduated.</p> <p>The applicant who has graduated or is expected to graduate from a university in China (excluding that in Taiwan, Hong Kong, and Macao) is also required to submit the following documents:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 50%;">Graduate</th> <th style="width: 50%;">Prospective Graduate</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">*</td> <td style="text-align: center;">*</td> </tr> </tbody> </table> <p>* Obtain the document for which the Web authentication will be valid as of Friday, June 4, 2021 via the authentication system of the Ministry Education of China ( ). <a href="http://www.chsi.com.cn/xlcx/bgys.jsp">http://www.chsi.com.cn/xlcx/bgys.jsp</a></p>	Graduate	Prospective Graduate	*	*

(Caution) The applicant who has passed a preliminary evaluation of the application eligibility need not submit the document No. 3 above.

Application period	Date of the entrance examination	Examination subject	Examination result announcement
Monday, May 10, 2021 - Friday, May 21, 2021	A day specified by the head of the Program between Friday, May 28, 2021 and Wednesday, June 9, 2021	Oral examination via internet	Planned to be Monday, June 21, 2021.

(Caution)

- (1) Dates and time listed above are represented in Japan Standard Time (JST).
- (2) The date of the entrance examination will be notified by the head of the respective Programs.

Your academic abilities regarding knowledge in the specialized field, application capability, and problem-solving abilities will be evaluated by the oral examination via internet using Skype or the other method.

Details of the oral examination will be notified on the day of the entrance examination.

(1) Basic Policy

The results of the oral examination & the screening of the application documents will be comprehensively evaluated.

(2) Evaluation Criteria

Oral examination Scale of 1 to 3 (A, B, C)

Application documents Scale of 1 to 3 (A, B, C)

The results will be notified to the accepted applicants via e-mail.

We will also send the Notice of acceptance and the admission guide to the accepted applicants.

(We do not answer any inquiry via phone.)

- (1) Consult with the faculty who is expected to be your academic supervisor about your research theme before applying.

For the information regarding faculty of the Graduate School, refer to following website.

URL: <https://www.hiroshima-u.ac.jp/en/adse/research>

The consultation is held as part of information provision from the Graduate School and does not affect the result of the selection in any way.

- (2) If there is any deficiency in the application documents, they may not be accepted. After the application documents are accepted, they shall not be returned and amending the information described in them is not allowed for any reason.
- (3) The certificates must be the original or a copy with the original certification. Any copy without the original certification will not be accepted as the valid certificate.
- (4) The score certificate of a language proficiency will be used for the following purposes:

Entrance examination

Statistics and analysis of a language proficiency of applicants

- (5) The admission approval shall be withdrawn when it is found that the submitted documents contain any false indication.
- (6) The admission approval shall be withdrawn when the applicant who was expected to meet any of the application eligibilities at the time of application has failed to meet the concerned criteria by the enrollment date.

The applicant who needs special consideration for the entrance examination and/or education in the Graduate School is requested to submit the application form (in free format) which contains the following information to the respective Support Offices listed in the section " Programs and Number of Students to be Admitted" (page 7) to arrange a consultation.

A. Period for the consultation: Monday, April 12 - Friday, April 23, 2021

B. Information to be described in the application form

Name & address of the applicant (the applicant's phone number must be included)

Name of the university from which the applicant has graduated, Program for which the applicant will apply, and the name of the faculty who is expected to be the applicant's academic supervisor

Type and severity of the disability (submit a medical certificate issued by a doctor if the applicant is in treatment)

Measures to be taken for the examination

Measures to be taken for the education in the Graduate School

Specific measures that were taken in the university from which the applicant has graduated

Conditions of the daily life

The personal information obtained via the admission selection process (name, birth date, gender, and the other personal information) is used for the selection of entrants, notification to the successful applicants, and the admission procedure. After the enrollment, Hiroshima University will manage the information for the purposes of student support (e.g. application for scholarship and tuition exemption) and investigation & research activities (e.g. improvement of the entrance examination system, investigation and analysis on the trend of application). We neither use the information for the other purposes nor provide it to the person other than our concerned faculty and staffs.

(1) Documents for admission procedure

The documents will be sent after the selection result is announced.

UCARO system is used as a part of the admission procedures.

(2) Fee

A: Enrollment fee: 282,000 yen

B: Tuition (per year): 535,800 yen

The enrollment fee once paid will not be returned for any reason.

The amounts listed above are as of March 2021. When the amount is revised at the time of admission or while the student is enrolled in the university, it is required to pay the revised amount.

- (1) The information regarding the result of the entrance examination listed in the table below can be disclosed only to the applicant (hereinafter referred to as the “applicant for disclosure”).

Item	Disclosed information
Examination score	Evaluation results of oral examination and application documents (scale assessment)

- (2) The examination result (personal information) will be disclosed on the respective Support Offices or sent via mail.

- (3) The applicant for disclosure is required to download the form of "Application for Entrance Examination Result Disclosure" from the website of the Graduate School, fill in the required information, and directly submit or mail it to the respective Support Offices.

It is also required to submit the admission ticket for identification.

- (4) The “Application for Entrance Examination Result Disclosure” will be accepted during the period from October 1, 2021 to November 30, 2021.

- (5) The result of the application shall be notified within 30 days after the “Application for Entrance Examination Result Disclosure” is accepted.

- (1) Smoking has been prohibited entirely in all HU campuses from January, 2020.

- (2) Hiroshima University has established the university’s Rules on Security Export Control in accordance with the Foreign Exchange and Foreign Trade Act, and conducts strict examinations for acceptance of international students, etc. Please note in advance that international students may be unable to receive their desired education or conduct their desired research due to the restriction by the above regulations.
