# For entrants in FY 2021

Appended Form 1

### Specifications for Major Program

Name of School (Program\$chool of Dentistry, Program ofternationalDentistry)

Program name (Japanes	<sub>se</sub> )7• Q Û É ß ¢ Û Ò
(English)	Program ofinternationaDentistry
>/>, Degree: Bachelo(nDenti	istry)

### >0>, Outline

The School of Dentistry provides the "Program **limit**ernationalDentistry" based on a foundational philosophy that aims to educate dental medical staff to acquire **-dissiplinary**, general, creative, and internatio capabilities. To enable students to achieve the targets defined for this program, education is provided according the contents described below:

- (1) Biodental education in the newly established academic framework that fuses life science and dental medicine and teaches the latest researchethods, knowledge, and skills while respecting the existing acaderameworks of life science and dental medicine;
- (2) Education for developing dental medical staff who are able to collect and analyze required knowledge an information, update their thing based on such knowledge and information in order to find comprehensive solutions to problems from a variety of points of view, and who possess a mindset that leads them to attem to judge and act on their own responsibility and with deep humanity; and
- (3) Education that fosters expressiveness, comprehension, and a rich sensitivity for Japanese ar languages, and that develops capabilities for communication with and presentation to persons from cultures and/or academic realms.
- >1>, Diploma policies (degree conferment policy & program attainment goals)

The Program for Internation Dentistry will award a degree of Bachelor of Dentistry to students who, in addition to earning the required credits defined for the educational course, haire declared capabilities described below:

- Deep humanity, an understanding of the professional responsibilities of a dentist, and the fund knowledge, skills, and attitude required for putting such responsibilities into practice;
- (2) Recognition of the importance of research, as well as possession of a scientific intelligence and creativity;
- (3) The ability to think critically and solve problems, as well as the ability to study continuously throughout life;
- (4) The ability to communicate appropriately with patients, their families, and the other medical staff;
- (5) A capability for coping with change in society and progress in science related to dental medicine; and
- (6) The ability to deepen empathy and understanding toward different cultures antidos ocientms, as well as a capability for convincingly representing personal opinions in an international society.
- >2>, Curriculum policies (policies for organizing & providing curricula)

To enable students to achieve the targets that are defined for thear Proof International Dentistry, the educational courses are organized and executed according to the following policies:

(1) The liberal arts subjects are provided to enable students to establish the academic foundation required for t

specialized educatino acquire academic and general knowledge, methodology, and points of vie develop a deep humanity based on a windering intelligence and the normative consciousness required for medical staff.

- (2) Students are allowed to improve their basic Englishility by taking foreign language subjects in the liberal arts education and practical English subjects provided in the specialized education. In addition to this, the join specialized educational subjects that are provided in both Japanese and Denglish Linguistic Education), and study with students on the International Dental Course antennoint ternational students, in order to enhance their empathy and understanding toward the cultures of various countries and improve their international commication abilities.
- (3) The specialized education subjects provide biodental education for practicing dental medicine based on lift science in order to enable students to acquire the basic knowledge and skills in life science specialized knowledge and basic clinical skills required for dentists; to enhance their understand scientific literacy, research ethics, and medical ethics; and to develop their scientific thinking abilities and creativity through practical dentistry research and education.
- (4) Students are encouraged to enhance their awareness as future dental practitioners through the practical clin experience gained in early stages of the course, and to recognize both the importance of the establishment good human relationshipsith patients, their families, and other medical staff and the diversity of needs in dental medicine. In addition to this, they acquire the perspectives, knowledge, skills, and attitude required to provide the highquality dental medicine that citizens the provide to take positions of responsibility in local society.
- (5) Integrated dental medicine education is provided for whole the educational course by intropolembased Learning (PBL) and the other educational methodologies deastering study rethods to enable students to develop the professionalism required for medical staff; improve their problem abilities, critical thinking, and ability for lifelong study; and acquire the capabilities required for medicine based on the holistibilosophy and general competence required in an international society.

The achievement in education is evaluated based on the result of the common achievement test (Computer Battesting (CBT) / Objective Structured Clinical Examination(OSCE)), conducted before starting practical clinical exercises, and the result of the common achievement test (Plinsiteal Clerkship Performance examination(PosCC Px)), conducted during practical clinical exercises addition to the grade scores for the subjects in the Program for Internation Dentistry and evaluation of the achievement level against the defined for this program, in order to develop dentists with the superior capabilities that are required in society and by citizens.

>3>, Start of the program / Admission conditions First year (at the time of admission)

>4>, Qualification(s)

Qualification for the National Board Dental Examination (obtainable on graduation)

#### >5>, Class subjects and class content

- \* See the Table of Registration Standards on Attached SHeend 12 for your class subjects.
- \* See the syllabus announced in each fiscal year for class content.

#### >6>, Academic achievements

At the end of each semester, evaluation criteria will be shown with a clear indication of attainment levels according to the evaluation items for academic achievements.

Students' learning outcomes from admission to the current semester will be indicated as one of thre "Excellent," "Very Good," and "Good," based on evaluation criteria calculated by adding the weighted values to numerically converted evaluations of their academic achievements (S = 4, A = 3, B = 2, and C= 1) in each subje being evaluated.

Evaluation & academic	Converted
achievement	values
S (Excellent: 90 points or	4
higher)	4
A (Superior: 80-89	3
points)	3
B (Good: 70 –79 points)	2
C (Fair: 60 –69 points)	1
o (i aii. oo oo poiiito)	•

<sup>\*</sup> See the relationships between evaluation items and evaluation criteria on Attached Sheet 2.

Academic achievements based on the Program (detailed knowledge, skills, and attitude)

1>,

2>,

3>,

<sup>\*</sup> See the relationships between evaluation items and class subjects on Attached Sheet 3.

<sup>\*</sup> See the Curriculum Map on Attached Sheet 4.

- 1>, Rich humanity, understanding of professional responsibilities dentist, and general capabilities including basic knowledge, skills, and attitude required for putting such responsibilities into practice
- 2>, Recognition of the importance of research, scientific intelligence, and creativity
- 3>, Ability to think critically, solve problems, and engage in lifelong learning
- 4>, Skills for appropriately communicating with patients, their families, and other medical staff
- 5>, Ability for coping with change in society and progress in science related to dental medicine
- 6>, Capabilities for coexisting and cooperating with persons from various cultures and regions, a international communication
- >7>,Graduation thesis (graduation research) (placement and method & time of assignment) Students are not required to prepare a graduation theses.

#### >/>.>, Responsibility system

The dean room council and the faculty council of the School of Dentistry are engaged in planning for and execution of this course. For the processes of evaluation and action for improvement, the dean of the School of Dentistry consults with the dean room council and the faculty council of the School of Dentistry, and carries out the required actions while taking the results of the consultations into consideration.

Note 1 You can substitute the credits which you have obtained by taking the "Field Research in the English-speaking World" based on shortterm language study abroad or other relevant program, or by taking the "Online English Course I, II & III" based on self-learning for English credits (7 credits) necessary for graduation. Also, there is a Credit Transfer System based on foreign language proficiency tests and language training.

Note 2 You have to select one language from German, French and Chinese.

Note 3 When failing to earn the credit for "Introduction to Information and Data Sciences" is it allowed to take the subject from courses in Information and Data Sciences Subjects.

Note 4 The subjects for which the credit is required to be earned are specified in the School of Dentistry. The credit for any subject that is not specified is not accepted as the credit required for graduation.
