The liberal arts education in this program aims to broaden students' perspective to enable them to examine historical and contemporary issues, including challenges regarding peace building, based on the ability to identify social issues from a wide point of view. It also aims to improve foreign language capabilities to enhance international communication and understanding of different cultures, promote acquisition of the knowledge and skills required for adapting to an information-intensive society, and develop an understanding and awareness of fitness, health, and sports. Students are educated to develop capabilities for discussion based on discernible facts, and effective presentation that constitutes the basis for situation analysis, logical thinking, and the ability to make proposals.
