Sakurai, G., Takahashi, S., Yoshida, Y., Yoshida, H., Shoji, J., Tomiyama, T. (2021): Importance of experienced thermal history: effect of acclimation temperatures on the high-temperature tolerance and growth performance of juvenile marbled flounder. Journal of Thermal Biology, 97: 102831.

Mekawy, A.M.M., Assaha, DVM., Ueda, A. (2020): Constitutive overexpression of rice metallothionein-like gene enhances growth and tolerance of Arabidopsis plants to a combination of various abiotic stresses. Journal of Plant Research, 133: 429-440.

Kamanga, R.M., Echigo, K., Yodoya, K., Mekawy, A.M.M., Ueda, A. (2020): Salinity acclimation ameliorates salt stress in tomato (L.) seedlings by triggering a cascade of physiological processes in the leaves. Scientia Horticulturae, 270: 109434.

Sriskantharajah, K., Osumi, S., Chuamnakthong, S., Nampei, M., Amas, J.C., Gregorio, G.B., Ueda, A. (2020): Contribution of two different Na^+ transport systems to acquired salinity tolerance in rice. Plant Science, 297:11-517.

Mekawy, A.M.M., Assaha, D.V.M., Ueda, A. (2020): Differential salt sensitivity of two flax cultivars coincides with differential sodium accumulation, biosynthesis of osmolytes and antioxidant enzyme activities. Journal of Plant Growth Regulation, 39: 1119-1126.

Takagi, D., Tazoe, Y., Suganami, M., Miyagi, A., Kawai-Yamada, M., Ueda, A., Suzuki, Y., Noguchi, K., Hirotsu, N., Makino, A. (2020): Phosphorus toxicity disturbs Rubisco activation and ROS defense by phytic acid accumulation. Plant, Cell & Environment, 43: 2033-2053.

Ueda, A., Ogasawara, S., Horiuchi, K. (2020): Identification of the genes controlling biofilm formation in the plant commensal Pf-5. Archives of Microbiology, 202: 2453-2459.

Sriskantharajah, K., Osumi, S., Chuamnakthong, S., Nampei, M., Amas, J.C., Gregorio, G.B., Ueda, A. (2020): Acquired salinity tolerance in rice: Plant growth dataset. Data in Brief, 31: 106023.

Nii, T., Bungo, T., Isobe, N., Yoshimura, Y. (2021): Slight Disruption in Intestinal Environment by Dextran Sodium Sulfate Reduces Egg Yolk Size Through Disfunction of Ovarian Follicle Growth. Frontiers in Physiology, 11:607369.

Purba, F.Y., Suzuki, N., Isobe, N. (2021): Association of endometritis and ovarian follicular cyst with mastitis in dairy cows. The Journal of Veterinary Medical Science, 83(2): 338-343.

Purba, F.Y., Nii, T., Yoshimura, Y., Isobe, N. (2020): Translocation of intrauterine-infused bacterial lipopolysaccharides to the mammary gland in dexamethasone-treated goats. Reproduction in Domestic Animals, 55:1688-1697.

Shimizu, M., Nii, T., Isobe, N., Yoshimura, Y. (2020): Effects of avian infectious bronchitis/Newcastle disease and Marek's disease vaccinations on the expression of Toll-like receptors and avian β-defensins in the kidneys of broiler chicks. Poultry Science, 99(12): 7092-7100.

Suzuki, N., Purba, F.Y., Hayashi, Y., Nii, T., Yoshimura, Y., Isobe, N. (2020): Seasonal variations in the concentration of antimicrobial components in milk of dairy cows. Animal Science Journal, 91(1): e13427.

Terada, T., Nii, T., Isobe, N., Yoshimura, Y. (2020): Effect of antibiotic treatment on microbial composition and expression of antimicrobial peptides and cytokines in the chick cecum. Poultry Science, 99(7):3385-3392.

Isobe, N., Matsukawa, S., Kubo, K., Ueno, K., Sugino, T., Nii, T., Yoshimura, Y. (2020): Effect of oral administration of colostrum whey to peripartum goat on antimicrobial peptides in postpartum milk. Animal Science Journal, 91(1): e13365.

Terada, T., Nii, T., Isobe, N., Yoshimura, Y. (2020): Effects of probiotics Lactobacillus reuteri and Clostridium butyricum on the expression of toll-like receptors, pro- and anti-inflammatory cytokines, and antimicrobial peptides in broiler chick intestine. Journal of Poultry Science, 57(4):310-318.

Terada, T., Nii, T., Isobe, N., Yoshimura, Y. (2020): Effects of Toll-like receptor ligands on the expression of proinflammatory cytokines and avian β-defensins in cultured chick intestine. Journal of Poultry Science, 57(3):210-222.

Nii, T., Kakuya, H., Isobe, N., Yoshimura, Y. (2020): Lactobacillus reuteri enhances the mucosal barrier function against heat killed Salmonella Typhimurium stimulation in the intestine of broiler chicks. Journal of Poultry Science, 57 (2): 148-159.

Nii, T., Isobe, N., Yoshimura, Y. (2020): Intestinal inflammation induced by dextran sodium sulphate causes liver inflammation and lipid metabolism disfunction in laying hens. Poultry Science, 99(3):1663-1677.

Nii, T., Jirapat, J., Isobe, N., Yoshimura, Y. (2020): Effects of oral administration of lactobacillus reuteri on mucosal barrier function of the digestive tract in broiler chicks. Journal of Poultry Science, 57: 67-76.

Purba, F.Y., Ueda, J., Nii, T., Yoshimura, Y., Isobe, N. (2020): Effects of intrauterine infusion of bacterial lipopolysaccharides on the mammary gland inflammatory response in goats. Veterinary Immunology and Immunopathology, 219: 109972.
