

	" Title " Presenters Name
1	"High temperature tolerance of <i>Chironomus sulfurosus</i> and its molecular mechanisms "
2	" Prevalence and genetic variability of multidrug-resistant <i>Escherichia coli</i> isolated from meat sources in Japan."
3	" Psyllium upregulates antimicrobial Reg3 peptide via Piezo1/STAT3 signaling pathway in the small intestine of mice "
4	" One Biofilm Approach for Food Safety "
5	" Effect of intramammary lipopolysaccharide challenge after repeated intrauterine infusion of lipopolysaccharide on the inflammation status of goat mammary glands "
6	" Effects of temperature and moisture content on the caking of amorphous carbohydrate powders "
7	" Roles of homocarnosine in hyperactivity-, anxiety-, and depression-like behaviors and effects of brain homocarnosine by prebiotic supplementation "
8	" Functional analysis of skeletal muscle-specific GDE5-deficient mouse – Crosstalk of choline metabolism and other metabolisms in skeletal muscle "
9	" "

	" Title " Presenters Name ( University Name )
1	" Optimization of ultrasound assisted extraction of tomato jellyfish collagen and its physicochemical properties "
2	" Efficacy of the Leaves of a Mangrove Plant <i>Sonneratia ovata</i> Against Marine Parasitic Leech in Aquaculture "
3	" Muricata Leaves: The Substitute of Broad Spectrum Antiparasitic Drugs "
4	" Fermentation of red seaweed <i>Halymenia durvillei</i> By Associated Epiphytic <i>Bacillus</i> species and Determination of its bioactive. "
5	" Induction of receptacles from tertiary leaves and vesicles of brown alga <i>Sargassum ilicifolium</i> C. Agardh in the Philippines "
6	" Sustainable Protein Sources as a Way for Zero Hunger and Climate Action. "
7	" Take urgent action to combat climate change and its impacts "
