The aim of the program is to train medical professionals specializing in oncology who can respond to the diverse new needs arising from the changing circumstances surrounding cancer treatment. In addition to clinical and research activities in specialized fields, the Oncologist Training Course offers a curriculum that emphasizes the acquisition of qualifications to take the examination for oncologists, for those who wish to become specialists in cancer treatment. Students can complete this course by completing the required elective courses in the Graduate School of Biomedical Sciences according to the Oncologist. If you are interested in becoming an oncologist in the future, please register for this course.
