6. Student achievement is evaluated in two aspects: grades of subjects taken and the degree of achievement of the set learning goals of the Integrated Arts and Sciences Program.

5. /Admission conditions

6. Qualification(s)

7. Class subjects and class content

* See the Table of Registration Standards on Attached Sheet 1 for your class subjects.

	Foundation Courses		6		If you obtain more than six credits from the Foundation Courses, the extra credits can be counted as credits in Area Courses (Courses in Arts and Humanities / Social Sciences and Courses in Natural Sciences). (Note 3) (Note 5)	1 or 2	Elective /Required	1st
Specialized Education Subjects			2		Invitation to Integrated Arts and Sciences	2	Required	1st
			2		Introduction to Integrated Arts and Sciences	2	Required	1st
	Multidisciplinary Subjects	Field of Human science	2	6	(Note 9)	1	Elective /Required	
		Field of Social science	2					
		Field of Natural science	2					
	Educational Field Subjects	Human Research Division	(0)	48	(Note 7) (Note 8)	1 or 2	Elective /Required	
		Natural Sciences Research Division	(0)					
		Social Studies Research Division	(0)					
	Specialized Foreign Language Subjects		(0)	4	(Note 6)	2	Elective /Required	
	Interdisciplinary subjects		(0)			1 or 2		
	Free elective subjects		10		(Note 8) (Note 10)	1～	Free elective	
			6		Special Research	6	Required	4th
No. of credits required for graduation			128					

) indicate the standard year for starting the related subjects. Students who fail to obtain a credit(s) in said elated subjects, and you can take classes offered in and after that academic year.

Note 2: You can substitute the credits you have obtained Ⅰ & Ⅱ & Ⅲ or -learning for English credits (4 credits) necessary for graduation. Also, there is a Credit Transfer System based on foreign language proficiency tests and language training. For details, see items related to English in Liberal Arts Education and

Note 3: It is desirable to take the Realm-based Subjects and Basic Subjects each with a good balance, even after subjects from the Specialized Education Field begin to be offered from the second year. Subjects from each field should be well-balanced in the Realm-based Subjects, and Basic Subjects should be taken in a good balance regardless of humanities subjects and science subjects

Note 4: Be sure to take Introduction to Information and Data Sciences In addition, select one subject from and Starting Programming from Scratch and .
If you obtain more than four credits from the Information and Data Science Courses, the extra credits can be counted as credits in Area Courses (Courses in Arts and Humanities / Social Sciences and Courses in Natural Sciences).

Note 5: (1) Elements of Calculus can be taken only by students who did not study a subject equivalent to Mathematics III in high school.
(2) Basic Concepts of Chemistry
not included) in high school.

Note 6: If you obtain more than four credits from Interdisciplinary Subjects and Specialized Foreign Language Subjects combined, the extra credits can be counted toward free elective subjects.

Note 7: (1) To take Educational Field Subjects, you must choose and register one field that you wish to study intensively from three Educational Fields (Human Research Division, Natural Sciences Research Division, and Social Studies Research Division).
(2) Choose one Course that you wish to study intensively from the registered Educational Field, and set the group as your main Course.
(3) To obtain the 48 credits in Educational Field Subjects, you should take classes from those offered in all Courses in the Educational redits in total in all Courses other than the main Course.
(4) The number of credits obtained in Educational Field Subjects can be added to the credits obtained in Free Elective Subjects following the steps below in the final results for course registration in the final year.
①The number of credits in each Course beyond the number of credits in each main Course
②The number of credits in all the Educational Field Subjects obtained beyond the 48 credits

Note 8: At least six credits in classes offered in a field other than the registered Educational Field (limited to those offered to Courses) must be included in those for Educational Field Subjects or in the Free Elective Subjects.

Note 9: Classes of Multidisciplinary Subjects are taught in English or Japanese. Credits from the same subject taken both in English and Japanese will only be counted once toward graduation. Students must complete a total of six credits, two each from the three fields of human science, social science and natural science. Any credits earned exceeding the minimum required credits for graduation (i.e. six credits) can be counted toward free elective subjects.

Note 10: Specialized Education subjects offered by other schools, etc. may be included.

			E		

The Program in Integrated Arts and Sciences places Liberal Arts Education as an opportunity "to cultivate the foundations of the ability to understand things in an interdisciplinary and comprehensive fashion by broadly encouraging an interest in study," rather than just "acquiring the basic knowledge and techniques directly leading to students' specialties." The detailed learning contents to be acquired are as follows:

Rich sensibility and flexible ideas, understanding of peace from a diversified standpoint, and understanding mutual relationships between fields, etc.

↓

Broaden students' perspectives, and change their viewpoints.

Acquisition of basic knowledge, language skills, and the ability to utilize information, understanding physical strength and health, etc.

↓

Create a foundation for learning.

Relationships between the evaluation items and class subjects
