A4 1

### 1. Aims of this Grant

School of Applied Biological Science aims to contribute not only to Hiroshima Prefecture but also to the Chugoku-Shikoku region as a base of knowledge. Therefore, our school will support the faculty members with their supervised students about 300,000 yen per subject for research that contributes to solving regional issues. In selection, we prioritize the research proposal collaborated with local organizations such as local governments and cooperatives including JA Hiroshima Group. In addition, please note that those who have been selected for the following grants cannot apply. “Young Research Support”, “Encouragement Award” and “Integrated research Support” of Graduate School of Integrated Sciences for Life

### 2. Details of the grant

1) About 300,000 yen per assignment.

(However, the amount may be reduced depending on the number of adopted cases.)

2) An undergraduate student from the School of Applied Biological Science can apply as a representative, but in the case, it is necessary to include a faculty member from the School of Applied Biological Science as a co-investigator.

(Undergraduates applying as representatives are not allowed to apply for graduation theses.)

3) The use of the grant is limited to faculty members of School of Applied Biological Science.

### 3. Grant period

From July, 2024 to March, 2025

### 4. Application form

1) Make the application form within one sheet (A4) in the following order, and then send it by email as PDF file to [sei-bucho-sien@office.hiroshima-u.ac.jp](mailto:sei-bucho-sien@office.hiroshima-u.ac.jp)

Research subject title

Applicant (name, job title)

Joint research institutes and joint researchers (name, job title)

Research summary (background and purpose, research plan, expected results)

Grant utilization plan

2) Deadline for application: 12:00 noon, June 14 (Fri.), 2024

[Submission destination] E-mail: [sei-bucho-sien@office.hiroshima-u.ac.jp](mailto:sei-bucho-sien@office.hiroshima-u.ac.jp)

If you have any questions regarding this research grant, please contact 1<sup>st</sup> floor office by e-mail.

### 5. About result report etc.

For the research projects that received the grant, the outline of the results (A4, about 1 sheet) will be published on the website. The Principal Investigators may be asked to present their research results at symposiums organized by the faculty.

In addition, when publishing the results of this project (society / treatise), please be sure to state that you have received this research grant.

If there is a problem with the publication of research results due to patents, etc., we will respond individually.
