

Hiroshima University (HU) herewith makes an open international job offer and seeks to appoint Professor with tenure in the research area of Biomedical and Health Sciences. This position is based on the 'Policy for recruiting/cultivating excellent faculty members'.

HU continues to develop an environment where such faculty member can engage himself/herself in research activities independently.

We are looking forward to welcoming those who are prepared to go along with the principles, long-term vision and medium-term target of HU (<https://www.hiroshima-u.ac.jp/en/about>), and who are motivated and can play key roles by committing themselves to research and education at HU.

Mitsuo Ochi, President of Hiroshima University

Announcement of Faculty Position
Graduate School of Biomedical and Health Sciences, Hiroshima University, Japan

June 2 2024

Graduate School of Biomedical and Health Sciences, Hiroshima University seeks applicants for one Professor position to strengthen our functions with regard to international dental education and research. The candidate is desired to have skills and experience to work on education and research in the field of Oral Pathology.

Now, we announce the recruitment is extended.

In education, we seek a person who can instruct graduate and undergraduate students in Oral Pathology and related subjects, while having sufficient knowledge to train students as advanced dental professionals or researchers in the School of Dentistry (Program of Dentistry and Program of Oral Health Science) and the Graduate School of Biomedical and Health Sciences. Our School of Dentistry launched an International Dental Course in 2011 and is implementing student education to improve global student competency. In the school the teacher must conduct lectures as “Dual Linguistic Education” using English and Japanese.

In research, we seek individuals who can promote research on oral pathology and dramatically develop molecular pathology research in addition to conventional pathological research using patient tissue specimens. This person shall be able to conduct research projects in cooperation with laboratories within and outside Hiroshima University.

We seek a person in the abovementioned fields who has enthusiasm for educational and can achieve excellent research results. The person shall understand the principles and visions of our schools and university and have belief in and passion for our schools and university administration.

We would appreciate if you send this announcement to relevant audiences. Also, we would be grateful if you could recommend someone who meets our requirements or encourage competent candidates to apply for this position.
