

Guidelines for Hiroshima University Public Recruitment of Special Postdoctoral Researchers for the 2017 (1st term) Academic Year

1. Purpose

This public recruitment is being carried out to hire graduates of the doctoral program (excluding the Master's program) who have received their doctorate degrees at Hiroshima University as Special Postdoctoral Researchers, aiming to support their career launch as future leaders in variety of opportunities in society including educational research organizations as well as the private industry.

2. Job Description

Successful applicants shall be assigned to the Global Career Design Center (the Center) and take the Center's Practical Program, aiming to acquire basic practical skills as well as a broad range of research development skills. They are also expected to proactively participate in the other activities designed for their career development and network building, while experiencing internships or collaborative research at companies or other institutions, to pursue their career development diversified beyond academia. They can conduct their research under the supervisor. Their performance in these various activities will be managed uniformly under the Young Researchers Portfolio System (YRPS) based on the Center's guidelines. In addition, they will be provided accordingly, while starting a job search after this subject employment.
