**October 2017 Admission (Second admission)**  
**April 2018 Admission**

TAOYAKA program offers interdisciplinary educational opportunities to develop young global leaders who can deal with the challenges of multicultural coexistence. A wide range of interdisciplinary courses on campus is integrated with intensive on-site activities in disadvantaged areas in both developed and developing countries, with special emphasis on improving lives by deeply understanding regional societies and cultures, developing proper technologies, and implementing these to resolve problems that directly confront while working closely with the regions. Students can receive degrees by taking courses taken at Hiroshima University.

## Information Sessions
